

# CENTURY CABINETRY

CENTURY CABINETS are manufactured using environmentally friendly practices. *Century Cabinetry* has been certified by the "Kitchen Cabinet Manufacturers Association" (KCMA) as meeting the standards for their "Environmental Stewardship Program" (ESP). Our organization is committed to meeting and further exceeding the standards as set forth by the leaders in our industry.

In addition to this certification, Century offers an upgrade to ALL WOOD cabinet construction which provides a Urea Free Formaldehyde product. This attains a (5.1) LEED rating "Leadership in Energy Environmental Designs," which is the highest rating in the industry.

In 2008 Century completed a Finishing System modernization program committed to environmentally safe processes. Stains and Finishes were converted to "Water-Base UV", thereby virtually eliminating Volatile Organic Compounds (VOC) and "Off-Gassing" odors. These standards provide a healthy product for your home while protecting and conserving our land and natural resources.
