

A modern kitchen featuring a large island with a marble countertop and dark blue cabinetry. The island is surrounded by light-colored wooden bar stools. The background shows a stainless steel range hood, a gas cooktop, and a sink with a gold faucet. The kitchen is well-lit with pendant lights and recessed lighting.

Century's Full Item Code

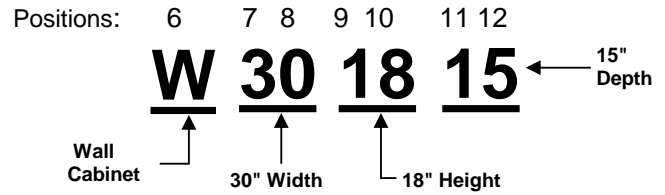

Century Full item code is 17 positions long

- Positions 1 to 3 = Cabinet Series
Ex : GHS / CHS
- Positions 4 to 5 = Door Style Code
Ex : GA = Georgetown Auburn
- Positions 6 to 17 = 12 Position Item Code
Ex : W2130L or B15L

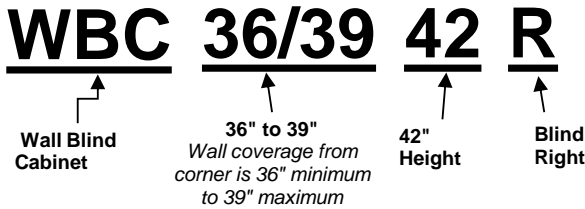

Wall Cabinets - Dimension and Handing Nomenclature

For Walls - Standard depth = 12". You only note depth when it is not the standard for that type of cabinet

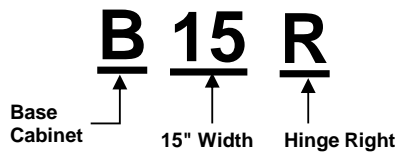

- Width - Positions 7 - 8
- Height - Positions 9 - 10
- Depth - Positions 11 - 12

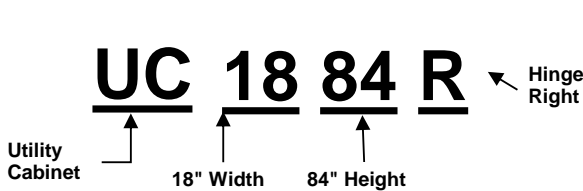

If item does not have numbers in position 11 and 12 the depth is 12"

Base Cabinets - Dimension and Handing Nomenclature

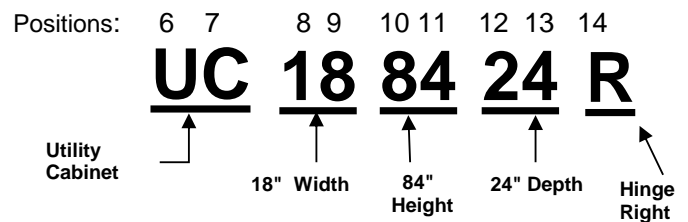

Utility Cabinets - Dimension and Handing Nomenclature

For UC - Standard depth = 12"

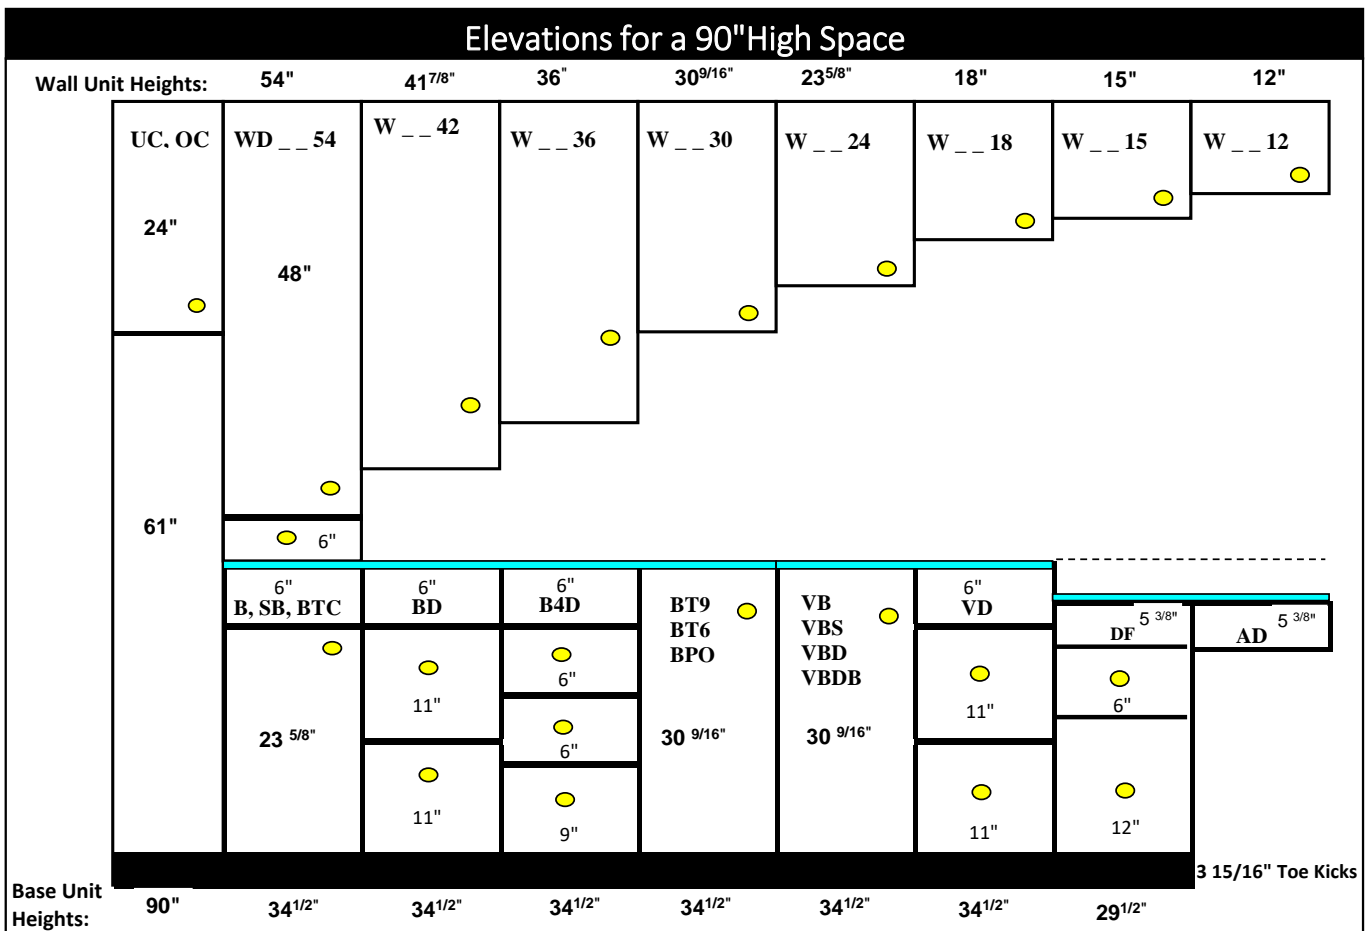

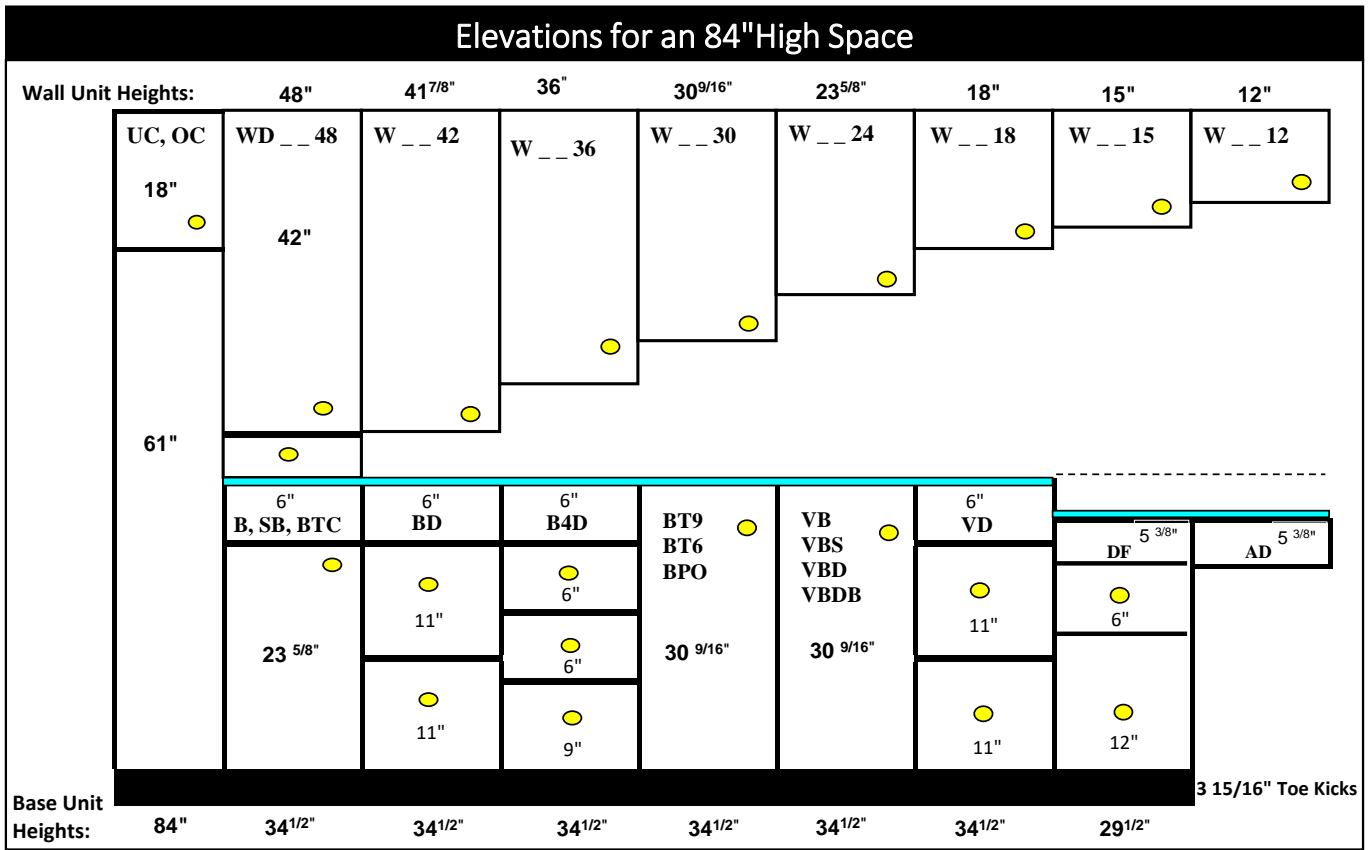

You only note depth when it is not the standard for that type of cabinet

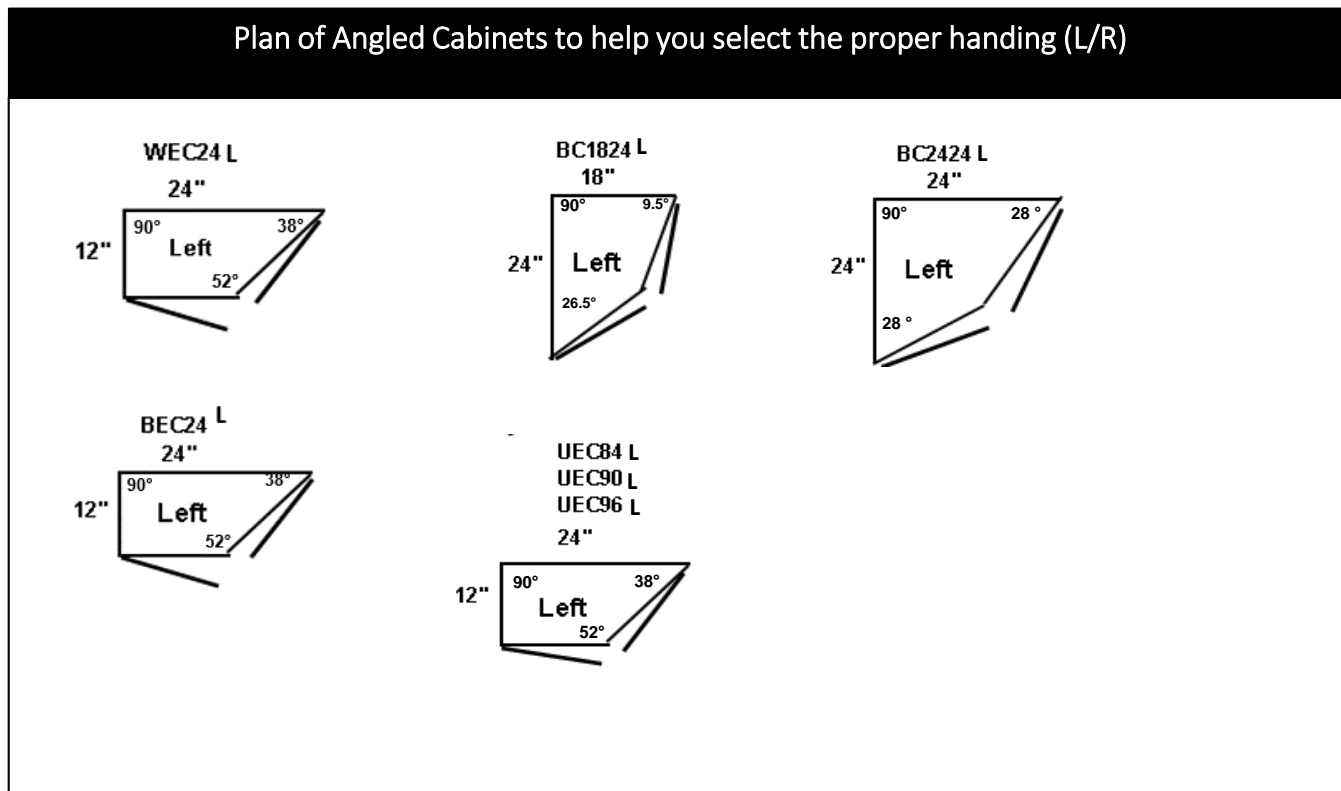

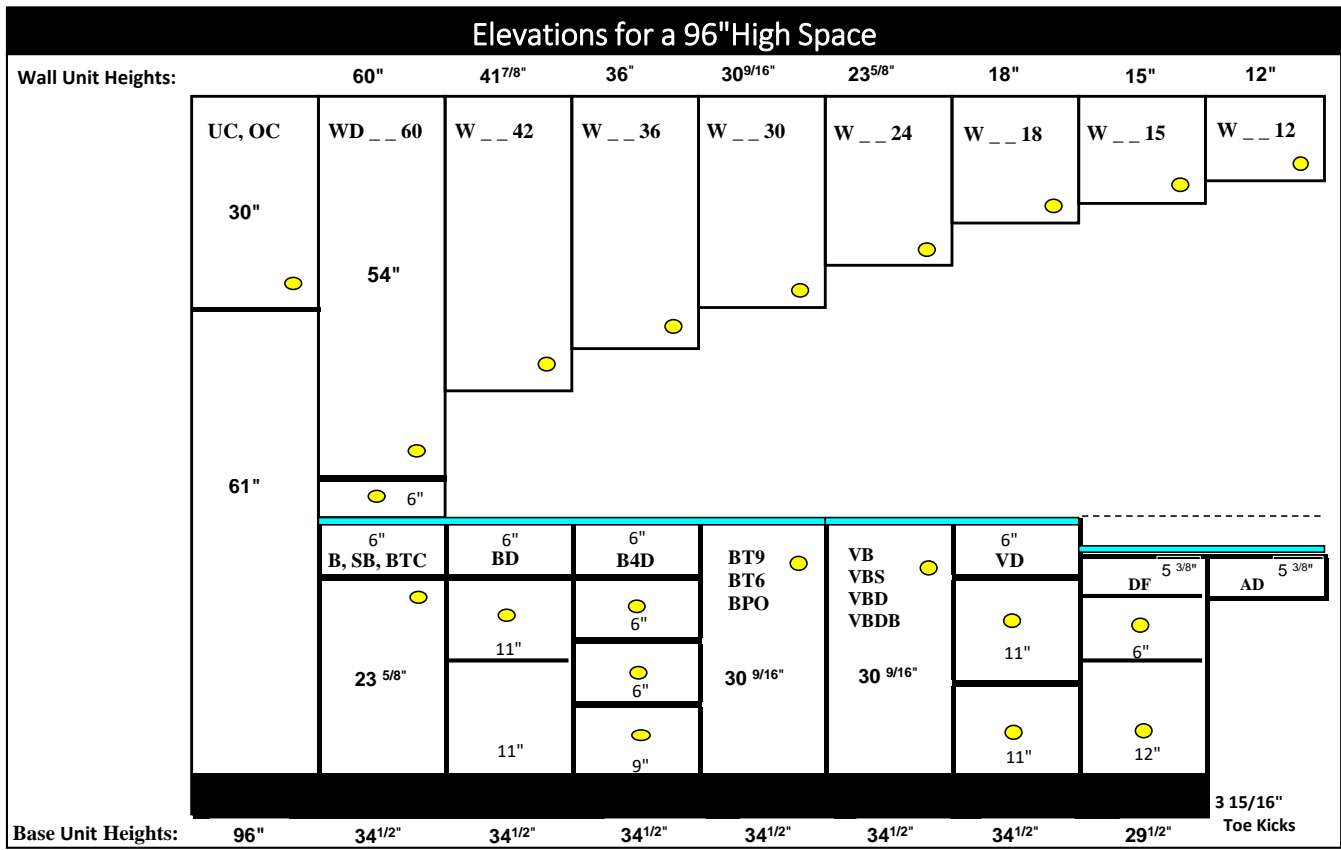

- Width - Positions 8 - 9
- Height - Positions 10 - 11
- Depth - Positions 12 - 13
- Handing - Position 14

*If item does not have numbers in position 12 & 13 the depth is 12"

Specifications: Dimensional Specifications

Specifications: Dimensional Specifications

Specifications: Cabinet Construction - Full Access (Frameless)

Backs

- 5.5 mm thick **fibrex*** painted natural maple wood-grain

Fibrex is a High Density Fiberboard (HDF) reinforced panel set into end panels, secured with adhesive and clamped under pressure, ensuring square construction.

Finished End Panels

- 5/8" thick furniture-board low pressure laminate
- Exposed ends coordinates with door color
- Front is edge-banded to coordinates with door color
- Drilled to receive 8mm wood-dowels (top and bottom)
- Interiors are Natural Maple color wood grain laminate

Unfinished End Panels

- Unexposed ends are neutral color

Tops & Bottoms

- 3/8" thick furniture board laminated low pressure laminate
- Front Edge has horizontal face frame rail attached (1 7/8" high)

The Following Cabinets Are Full Access (Frameless) Construction:

Oven Cabinets (OC)	Base Lazy Susans (BLS)	Apron Drawers (AD)
Pantries and Utilities (UC)	Base Corner Susans (BCS)	Desk Files (DF and DDF)
Utility End Corners (UEC)	Base End Corner (BEC)	Vanity Linen (VL)
Wall End Corner (WEC)	Base Corner (BC)	Wine Rack Diagonal (WRD)*
Lift-Up Door Appliance Garage (WLIFT)	Base Pullout (BPO6)	* Does not use face frame rail

Specifications: Cabinet Construction - Framed

Face Frames

- 3/4" thick solid wood stiles and rails; joined with pocket screws
- Stiles are 1 1/8" wide; inside edge is beaded and outside edge radiused
- Rails are 1 7/8" wide inside edge is beaded and outside edge radiused

Backs

- 5.5 mm thick **fibrex*** painted natural maple wood-grain
- ***Fibrex is a High Density Fiberboard (HDF) reinforced panel set into end panels, secured with adhesive and clamped under pressure, ensuring square construction. ****

End Panels

- **Unexposed** end panels are 3/8" thick furniture-board; recessed a 1/4" from outside edge of face frame.
- Exterior face of end panel is laminated with a low pressure laminate.
- Interior face of end panel is laminated with a low pressure laminate in natural maple wood grain.
- **Exposed** end panels are 5/8" thick furniture-board; semi-flush with outside edge of face frame.
- Exterior face of end panel is low pressure laminate coordinating with door color.
- Interior face of end panel is low pressure laminate in Natural Maple color wood grain.

Tops & Bottoms

Wall Cabinets

- 3/8" thick furniture-board low pressure laminate with Natural Maple wood-grain on both sides.
- Dadoed and glued into the end panels and face-frame.

Base Cabinets

- Bottoms -- 3/8" thick furniture-board with low pressure laminate.
- Dadoed and glued into the end panels and face frame.
- Tops -- 3/8" Thick Plywood Vertical Construction Braces

Toekicks

- Separately constructed; glued and stapled to the cabinet.
- Constructed of 5/8" thick MDF or furniture board.
- On finished cabinet ends, the toekick is recessed in 2".
- On nonfinished cabinet ends, toe kick is recessed in 3/8".
- **TKC8** must be ordered to give a seamless finish in field.

Shelves

Carriage House Series

- 3/4" thick furniture-board low pressure laminate; with beaded wood edge.
- **Bradford, Coventry & Manchester Door Styles Use Gatehouse Shelf****

Gatehouse Series

- 3/4" thick furniture-board laminated low pressure laminate; with PVC edge-banding.

Specifications: Cabinet Construction - Framed (All Wood Construction)

Face Frames

- 3/4" thick solid wood stiles and rails; joined with pocket screws.
- Stiles are 1 1/8" wide; inside edge is beaded and outside edge radiused.
- Rails are 1 7/8" wide inside edge is beaded and outside edge radiused.

Backs

- 5.5 mm thick prefinished wood veneer with an MDF core.

End Panels (Carriage House)

- **Unexposed** end panels are 1/2" thick plywood; recessed a 1/8" from outside edge of face frame.
 - Exterior face of end panel is laminated with an unfinished wood veneer inner plies and MDF cross-bands.
 - Interior face of end panel is laminated with a prefinished wood veneer inner plies and MDF cross-bands.
 - **Exposed** end panels are 5/8" thick plywood; semi flush with outside edge of face frame.
 - Exterior face of end panel is laminated with a wood veneer inner plies and MDF cross-bands. A matching stain or paint color is applied to MDF or wood veneer.
 - Interior face of end panel is laminated with a prefinished wood veneer inner plies and MDF cross-bands.
- ***NOTE: Bradford, Coventry & Manchester Door Styles use Gatehouse Specifications***

End Panels (Gatehouse)

- **Unexposed** end panels are 1/2" thick plywood; recessed a 1/8" from outside edge of face frame.
- Exterior face of end panel is laminated with an unfinished wood veneer.
- Interior face of end panel is laminated with a prefinished wood veneer.
- **Exposed** end panels are 1/2" thick plywood; recessed a 1/8" from outside edge of face frame. Back of frame is unfinished.
- Exterior face of end panel is laminated with a wood veneer in the matching stain or paint color.
- Interior face of end panel is laminated with a wood veneer.

Tops & Bottoms

Wall Cabinets

- 3/8" thick plywood laminated with a prefinished wood veneer on both sides.
- Dadoed and glued into the end panels and face-frame.

Base Cabinets

- Bottoms -- 3/8" thick plywood prefinished wood veneer.
- Dadoed and glued into the end panels and face frame.
- Tops -- 3/8" thick plywood Vertical Construction Braces.

Toekicks

- Separately constructed; then glued and stapled to the cabinet.
- Constructed of 1/2" - 5/8" thick plywood.
- On finished cabinet ends, the toekick is recessed in 2".
- On unfinished cabinet ends, the toekick is recessed 1/2".
- **TKC8** must be ordered to give a seamless finish in field.

Shelves

Carriage House Series

- 3/4" thick plywood laminated with a prefinished wood veneer on both sides; with beaded wood edge.
- **Bradford, Coventry & Manchester Door Styles Use Gatehouse Shelf****

Gatehouse Series

- 3/4" thick plywood laminated with a prefinished wood veneer; with prefinished wood veneer edge banding.

L3	Left Handed Door - 3 hinge Drillings
R2	Right Handed Door - 2 hinge Drillings
R3	Right Handed Door - 3 hinge Drillings
CD	Door that attaches to the cabinet Use this code when ordering Door for BLS or BCS cabinet
DD	Door that attaches to the door Use this code when ordering Door for BLS or BCS cabinet

Specifications: Terms & Policies

LEAD TIMES/CHANGE ORDERS/CANCELLATIONS

STANDARD ORDERS (4 week lead times plus delivery) - Century provides a two (2) day time period from date of order acknowledgement to change/cancel order. After that time, it will be locked into production. Subsequent changes or cancellation of the order will result in:

- **WEEK 1 – 25% CHARGE FOR WORK IN PROGRESS**
- **WEEK 2 – 50% CHARGE FOR WORK IN PROGRESS**
- **WEEK 3 & 4 – 100% CHARGE FOR WORK IN PROGRESS**

SHORT-LEAD WAIVER (3 week lead times plus delivery) - Century provides zero (0) day time period from date of order acknowledgement to change/cancel an order. The order is immediately processed, released, and locked into production. Changes or cancellation of the order will result in:

- **WEEK 1 – 25% CHARGE FOR WORK IN PROGRESS**
- **WEEK 2 – 50% CHARGE FOR WORK IN PROGRESS**
- **WEEK 3 – 100% CHARGE FOR WORK IN PROGRESS**

TERMS AND CONDITIONS OF SALE

- 1) 50% DEPOSIT is required to process all orders over \$10,000 for C.I.A. (Cash In Advance) customers. Orders less than \$10,000 are required to be paid in full. Century accepts bank checks, personal checks, and most major credit cards. Century will not hold or accept post dated checks. \$50 service charge will be applied for checks returned from bank for Non-Sufficient Funds. Balance is due 5 BUSINESS DAYS prior to delivery. If not paid, delivery will be cancelled and not re-scheduled until balance is paid in full.
- 2) Ship date on order acknowledgement is TENTATIVE. Customer will be advised of ship date approximately 1 week prior to the date on the order. Material held after 30 days from ship date may be disposed of and deposit forfeited or a storage fee of \$100 per week will be added to the balance.
- 3) Delivery must be cancelled 5 working days before delivery or a charge of \$100 will be applied to deliver cabinets on the next scheduled day.
- 4) Customer or authorized representative must be present at delivery site to sign for merchandise. Deliveries unable to be made will incur an additional \$350 charge and applied to re-scheduled delivery.
- 5) It is the buyers responsibility, at time of delivery, to verify quantities received, inspect cartons for visible damage, sign and date shipping tickets.
- 6) Claims for shortages, errors, and damages must be noted on shipping ticket at time of delivery. Concealed damages must be reported to your Century Sales Representative/Administrator within 1 week of shipment.
- 7) Cabinetry is NOT RETURNABLE unless defective. Defective items need to be returned within 30 days of delivery uninstalled and in original box. Stocked accessories may be returned with a 35% restocking fee. Returned accessories must be in good condition or no credit will be issued.
- 8) Installation and adjustment of merchandise is the responsibility of the customer.
- 9) Century Cabinetry has a 10-year limited warranty, effective as of 4/1/12. Century Cabinetry will repair or replace any material that proves defective. Claims for labor installation cost will NOT be accepted.

Specifications: Warranty Information

10 Year Limited Warranty

Century Cabinetry, Inc. warrants its products to be free from defects in material or workmanship under normal use for a period of 10 years from date of purchase by the original consumer purchaser and is not transferrable to subsequent homeowners. Should defects in material or workmanship arise during this warranty period, Century Cabinetry, Inc. will replace or repair, at its discretion, the defective cabinet, material or component.

This warranty does not cover products that are misused, abused, neglected, modified, improperly stored, incorrectly installed, or subjected to extremes in moisture or temperature.

This warranty covers only parts and materials of the products manufactured by Century Cabinetry, Inc.. Not covered under this warranty are countertops, appliances, plumbing fixtures, etc or the costs (including labor) to remove or re-install materials or related items such as plumbing fixtures, countertops, appliances...

Wood Disclaimer

Variations in color and grain are a natural characteristic of wood. Changes in color on finished wood products can occur due to exposure to light and other environmental factors. These variations and color changes are not deemed defective and therefore are not covered under this warranty.

Finishes/Glazes/Distressing

Variations in Century Cabinetry's hand applied finishes and glazes are what give each piece its distinctive look and these variations are not considered to be defects in material or workmanship.

Changes to Finishes or Product Design

Century Cabinetry may modify product due to supplier availability and as changes or improvements are implemented, but is under no obligation to make these changes to previously manufactured product.

If a warranty claim is filed after a product or finish becomes obsolete, Century Cabinetry reserves the right to honor the warranty in the following ways:

- a. To replace the affected component with a new component of the same style
- b. To replace the affected component with any other component(s) to achieve a similar appearance with a style that is comparable in appearance, color, design or construction based upon current product offerings.

If components are replaced, Century Cabinetry cannot guarantee that the finish of these items will be an exact match to the finish and appearance of the original purchased components.

Implied Warranties

This warranty is only valid in the United States of America. To the extent permitted by law, any implied warranties, including the implied warranties of merchantability and fitness for a particular purpose, are limited to the duration of this express warranty. This warranty excludes any incidental or consequential damages. Some states do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

Making a Claim

To make a claim under this warranty, the purchaser must contact their local Century dealer or distributor and report said defects. If you have difficulty obtaining assistance write to: Century Cabinetry Inc. 220 Phillips Road Exton, PA 19341. Attn: Customer Warranty/Service Department. To ensure timely processing, please include your name, phone number, builder or contractor name, lot number, address, city, state, and zip code.

Warranty Effective Date

This warranty is effective as of April 1, 2012 and covers all cabinets ordered on or after this date.

THIS WARRANTY IS THE EXCLUSIVE WARRANTY OF CENTURY CABINETRY AND IS IN LIEU OF ALL OTHER WARRANTIES, EITHER EXPRESSED OR IMPLIED. IN NO EVENT SHALL CENTURY CABINETRY BE LIABLE FOR CONSEQUENTIAL, INDIRECT OR INCIDENTAL DAMAGES RESULTING FROM THE INSTALLATION, USE OR FAILURE OF ITS PRODUCT.

Care & Cleaning Guidelines

The solid wood and wood veneer components used in the manufacture of your cabinets are finished with a Water-Based UV Finish, which will hold up to continuous use for many years. The materials used in the finishing process are especially designed to meet industry performance standards for resistance to moisture, grease, soap, detergents, and food stains. The following guidelines and suggestions should help keep your cabinetry looking beautiful for many years.

General Cleaning and Care of Wood Cabinets

Remove any oil, grease, or soil, using a clean damp cloth of mild soap and water. Rinse with a clean damp cloth. Dry thoroughly with a soft lint-free cloth. DO NOT use steel wool, soap pads, polishing wax or cleaners containing bleach, ammonia, harsh detergents, and abrasives. All of these can remove the factory-applied finish and thus void warranty.

Routine cleaning can help prevent permanent damage from build up of grease and smoke.

Excess moisture can also damage cabinets. The most common areas for moisture build-up are around the sink, range, dishwasher, oven, and baseboard. Immediately dry surfaces with a clean cloth.

Over time cabinet finish may either darken or lighten depending upon lighting. This is normal.

To repair nicks and scratches

Use a matching Touch Up Marker which is designed to match the cabinet finish. If you do not have one, please contact your Century Cabinetry dealer.

Apply the touch up marker over the scratched area and wipe away the excess with a clean soft cloth. Never use sand paper or any other material to even out a scratch, as it will damage the finish.

Care of Cabinet Interiors

Century Cabinetry's shelves are made of low pressure laminate which is a material that is resistant to scratches, stains, and water penetration

To remove food residue or grease, use any common dishwashing liquid (not detergent) or a solution of mild soap and water. Wipe clean with a clean soft damp cloth and dry thoroughly. Wipe up spills and dry immediately.

Self-Cleaning Ovens

Self-cleaning ovens are cleaned through the use of intense heat. If the heat gasket does not seal properly, heat may escape from the oven. Cabinet components installed near the oven may suffer finish or surface damage.

To minimize risk of damage during cleaning cycles, we recommend that you remove doors and drawers from cabinets that are above and adjacent to a self-cleaning oven.

Specifications: Industry Qualifications

Century Cabinetry is committed to conducting our business in an environmentally responsible manner. Our commitment to environmental awareness and preservation is reflected throughout our business. Century's cabinetry is manufactured using environmentally friendly practices.

KCMA Certified

Century Cabinetry has been certified by the Kitchen Cabinet Manufacturers Association (KCMA) as meeting the standards for their Environmental Stewardship Program (ESP). Our organization is committed to meeting and further exceeding the standards as set forth by the leaders in our industry. Visit WWW.KCMA.ORG for more information.

CARB II Compliant

California Air Resources Board (CARB) continues in the development of innovative air pollution control strategies. CARB II is the toughest standard in the world for formaldehyde emission levels from composite wood panels. Century Cabinetry products are CARB II compliant. Visit WWW.ARB.CA.GOV for more information.

WATER BASE UV Finishing

In 2008, Century completed a Finishing System Modernization program committed to environmentally safe processes. Stains and Finishes were converted to Water-Base UV thereby virtually eliminating hazardous air pollutants (HAPS) and off-gassing odors and greatly reducing volatile organic compounds (VOC). Material is also formulated without heavy metals and are formaldehyde free. These standards provide a healthy product for your home while protecting and conserving our land and natural resources.

LEADERSHIP IN ENERGY ENVIRONMENTAL DESIGN (LEED)

LEED is a nationally accepted benchmark for the design, construction and operation of high-performance green buildings. The LEED certification program is run under the guidance of the US Green Building Council (USGBC). Please visit WWW.USGBC.ORG for more information. Century Cabinetry can provide cabinets to fulfill most of your LEED project requirements.

Doors & Finishes: Wood Species Information

Wood is a natural material that has inherent variations in its graining and color. Because of this, each piece of wood or veneer accepts stain differently. This is part of what contributes to the unique beauty of wood. In addition, color difference or changes in the wood can occur over time with exposure to sunlight, harsh chemicals, smoke, and extreme heat or moisture. These are important characteristics of wood that should be taken into consideration. Additional information pertaining to each specific type of wood species is listed below.

Cherry is a close-grained hardwood with rich, varying colors ranging from light pink to deep browns. undulating waves and curls in the grain are natural and desirable qualities found in this wood. As Cherry ages, the wood becomes darker and this is especially apparent when exposed to direct sunlight. Other naturally occurring characteristics of this elegant wood include pin knots and mineral streaks.

Maple has a smooth, even texture and is a more uniformed close-grained wood. Its natural colors range from a creamy white to dark reddish-brown tones. This varying palette can occur within a single door. Maple may contain mineral streaks, wavy or curly graining, and fine brown lines; all of which are acceptable characteristics of Maple's natural beauty.

MDF, or Medium-Density Fiberboard, is an extremely stable wood composite material made from wood fibers and resin. Because of its inherent stability, it's ideal for painted doors and drawer fronts. It is resistant to changes in heat and humidity unlike painted wood doors which are very susceptible to contracting & expanding. MDF painted doors create a beautiful look with a long lasting, durable finish.

STAIN

Our cabinets are finished with a premium water-based UV cured finish. It is environmentally friendly and provides excellent durability and performance. The lusturious finish enhances the natural grain of the woods while providing a consistent, elegant appearance, even with darker stains. Because it is a UV-cured finish, the color will less likely fade over time which helps to maintain the beauty of your investment.

PAINT

Our paint finishes are also water-based UV cured finishes, with the same eco-friendliness and performance. It is a durable, opaque color that emphasizes and accentuates the rich detailing of each door. It also will less likely fade over time and maintain a consistent, elegant look to the cabinetry.

GLAZES*

Glazes are a hand applied finish that accentuates the unique detailing on the doors and drawer fronts. It collects in the corners, grooves, and recesses and because of this, the overall look varies from subtle to dramatic based on the door style selected. Face frames, ends, panels, and selected moldings will not receive glazing. Some slab drawer fronts will not receive any glazing due to the lack of detail. For further clarification please contact your rep. or designer.

DISTRESSING*

Distressing is offered in two colors: Black Distressed and Walnut Black Distressed.

Walnut Black Distressed feature hand applied distressing characteristics like bird pecks and scratches meant to replicate an aged look. This is further accentuated by the addition of glazing which highlights the appealing imperfections.

Black Distressed feature a sandthrough technique which exposes the underlying panel and replicates a time-worn effect.

**** Specialty finish techniques in particular will vary within individual doors and throughout the entire room. It is recommended that a sample door and drawer front be ordered to illustrate the unique characteristics inherent within each finish. Inconsistencies should be expected and are acceptable qualities featured in the specialty finishes.***

The flat filler is attached directly to the end panel

Fillers and Panels

End Panel Door Program (EPDR)

- End Panel Doors (EPDR) are decorative door panels that can be ordered as separate items and applied to the finished ends of Wall, Base and Tall Cabinets.
- EPDR's are made of 3/4" deeper than the cabinet side.
- Front edge of the End Panel Door covers the face frame.
- Meets the edge of the door on the front of the cabinet.
- The back edge of the End Panel Door is flat so that it butts up against the wall evenly.
- The front, top and bottom edges of the End Panel Door are detailed to match the edges of the cabinet doors based upon the cabinet series you are ordering.

Note: *Since the back edge of the EPDR is flat, these should not be used to wrap around islands and peninsulas. The EPDR is designed to be used as a decorative door panel on the sides of cabinets that butt up against a wall.*

You must designate **finished ends** for all cabinets that will be receiving the decorative End Panel Doors (EPDR)

Note: The door stile installed next to the wall is 3/8" narrower than the other stile.

Replacement Items

Door Hinge Drilling Information for GHS and CHS

When ordering replacement doors, it is important to know the following:

1. All doors up to 36" high receive 2 hinge drillings.
 2. All GHS and CHS doors 42" high receive 3 hinge drillings; except angled, glass and mullion doors which receive 2 hinge drillings.
 3. All angled, glass and mullion doors receive 2 hinge drillings.
 4. All 48", 54" and 61" high doors receive 3 hinge drillings.
 5. Hinges do not come with the doors - if needed, they must be ordered separately as REPLACEMENT ITEM.
- ** Be sure to specify the type of cabinet and manufacturer in REPLACEMENT ITEM detail screen to ensure you receive the correct hinges!! ***

EURO Specifications: Terms & Policies

LEAD TIMES/CHANGE ORDERS/CANCELLATIONS

STANDARD ORDERS (4 week lead times plus delivery) - Century provides a two (2) day time period from date of order acknowledgement to change/cancel order. After that time and release of order, it will be locked into production. Subsequent changes or cancellation of the order will result in:

- **WEEK 1 – 25% CHARGE FOR WORK IN PROGRESS**
- **WEEK 2 – 50% CHARGE FOR WORK IN PROGRESS**
- **WEEK 3 & 4 – 100% CHARGE FOR WORK IN PROGRESS**

SHORT-LEAD WAIVER (3 week lead times plus delivery) - Century provides zero (0) day time period from date of order acknowledgement to change/cancel an order. The order is immediately processed, released, and locked into production. Changes or cancellation of the order will result in:

- **WEEK 1 – 25% CHARGE FOR WORK IN PROGRESS**
- **WEEK 2 – 50% CHARGE FOR WORK IN PROGRESS**
- **WEEK 3 – 100% CHARGE FOR WORK IN PROGRESS**

Note: Capri door adds one week lead time to standard orders and short-lead waiver.

TERMS AND CONDITIONS OF SALE

- 1) 50% DEPOSIT is required to process all orders over \$5,000 for C.I.A. (Cash In Advance) customers. Orders less than \$10,000 are required to be paid in full. Accounts with established credit terms may remit payment with bank checks, company checks, and wire transfers of funds. Century accepts most major credit card payments for retail sales only. Century will not hold or accept post dated checks. A \$50 service charge will be applied for check returned from bank for non-sufficient funds. Balance is due five (5) business days prior to delivery. If not paid, delivery will be cancelled and not re-scheduled until balance is paid in full.
- 2) Installation and adjustment of merchandise is the responsibility of the customer.
- 3) Delivery date on order acknowledgement is tentative. Customer will be advised of delivery date approximately one (1) week prior to date on order. Material held after thirty (30) days from delivery date will be disposed of and deposit forfeited or a storage fee of \$100 per week will be added to the balance.
- 4) Delivery must be cancelled by 9am the day before delivery or a charge of \$100 will be applied to deliver cabinets on the next scheduled day.
- 5) Customer or authorized representative must be present at delivery site to sign for merchandise. Deliveries unable to be made will incur an additional \$350 charge and applied to re-scheduled delivery.
- 6) It is the buyers responsibility, at time of delivery, to verify quantities received, inspect cartons for visible damage, sign and date shipping tickets.
- 7) Claims for shortages, errors, and damages must be noted on shipping ticket at time of delivery. Concealed damages must be reported to your Century Sales Representative/Administrator within 1 week of shipment.
- 8) Cabinetry is NOT RETURNABLE unless defective. Defective items need to be returned within 30 days of delivery uninstalled and in original box. Stocked accessories may be returned with a 35% re-stocking fee. Returned accessories must be in good condition or no credit will be issued.
- 9) Century Cabinetry has a 10-year limited warranty, effective as of 4/1/12. Century Cabinetry will repair or replace any material that proves defective. Claims for labor installation cost will NOT be accepted.

10 Year Limited Warranty

Century Cabinetry, Inc. warrants its products to be free from defects in material or workmanship under normal use for a period of 10 years from date of purchase by the original consumer purchaser and is not transferrable to subsequent homeowners. Should defects in material or workmanship arise during this warranty period, Century Cabinetry, Inc. will replace or repair, at its discretion, the defective cabinet, material or component.

This warranty does not cover products that are misused, abused, neglected, modified, improperly stored, incorrectly installed, or subjected to extremes in moisture or temperature.

This warranty covers only parts and materials of the products manufactured by Century Cabinetry, Inc.. Not covered under this warranty are countertops, appliances, plumbing fixtures, etc or the costs (including labor) to remove or re-install materials or related items such as plumbing fixtures, countertops, appliances...

Changes to Finishes or Product Design

Century Cabinetry may modify product due to supplier availability and as changes or improvements are implemented, but is under no obligation to make these changes to previously manufactured product.

If a warranty claim is filed after a product or finish becomes obsolete, Century Cabinetry reserves the right to honor the warranty in the following ways:

- a. To replace the affected component with a new component of the same style
- b. To replace the affected component with any other component(s) to achieve a similar appearance with a style that is comparable in appearance, color, design or construction based upon current product offerings.

If components are replaced, Century Cabinetry cannot guarantee that the finish of these items will be an exact match to the finish and appearance of the original purchased components.

Implied Warranties

This warranty is only valid in the United States of America. To the extent permitted by law, any implied warranties, including the implied warranties of merchantability and fitness for a particular purpose, are limited to the duration of this express warranty. This warranty excludes any incidental or consequential damages. Some states do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

Making a Claim

To make a claim under this warranty, the purchaser must contact their local Century dealer or distributor and report said defects. If you have difficulty obtaining assistance write to: Century Cabinetry Inc. 220 Phillips Road Exton, PA 19341. Attn: Customer Warranty/Service Department. To ensure timely processing, please include your name, phone number, builder or contractor name, lot number, address, city, state, and zip code.

Warranty Effective Date

This warranty is effective as of April 1, 2012 and covers all cabinets ordered on or after this date. Cabinets ordered before April 1, 2012 are covered under the preceding **FIVE-YEAR** warranty.

THIS WARRANTY IS THE EXCLUSIVE WARRANTY OF CENTURY CABINETRY AND IS IN LIEU OF ALL OTHER WARRANTIES, EITHER EXPRESSED OR IMPLIED. IN NO EVENT SHALL CENTURY CABINETRY BE LIABLE FOR CONSEQUENTIAL, INDIRECT OR INCIDENTAL DAMAGES RESULTING FROM THE INSTALLATION, USE OR FAILURE OF ITS PRODUCT.

Care & Cleaning Guidelines

The following guidelines and suggestions should help keep your cabinetry looking beautiful for many years.

General Cleaning and Care of Euro Cabinets

Remove any oil, grease, or soil, using a clean damp cloth of mild soap and water. Rinse with a clean damp cloth. Dry thoroughly with a soft lint-free cloth. DO NOT use steel wool, soap pads, polishing wax or cleaners containing bleach, ammonia, harsh detergents, and abrasives.

Routine cleaning can help prevent permanent damage from build up of grease and smoke.

Excess moisture can also damage cabinets. The most common areas for moisture build-up are around the sink, range, dishwasher, oven, and baseboard. Immediately dry surfaces with a clean cloth.

Care of Cabinet Interiors

Century Cabinetry's shelves are made of low pressure laminate which is a material that is resistant to scratches, stains, and water penetration

To remove food residue or grease, use any common dishwashing liquid (not detergent) or a solution of mild soap and water. Wipe clean with a clean soft damp cloth and dry thoroughly. Wipe up spills and dry immediately.

Self-Cleaning Ovens

Self-cleaning ovens are cleaned through the use of intense heat. If the heat gasket does not seal properly, heat may escape from the oven. Cabinet components installed near the oven may suffer finish or surface damage.

To minimize risk of damage during cleaning cycles, we recommend that you remove doors and drawers from cabinets that are above and adjacent to a self-cleaning oven.

Century Cabinetry is committed to conducting our business in an environmentally responsible manner. Our commitment to environmental awareness and preservation is reflected throughout our business. Century's cabinetry is manufactured using environmentally friendly practices.

KCMA Certified

Century Cabinetry has been certified by the Kitchen Cabinet Manufacturers Association (KCMA) as meeting the standards for their Environmental Stewardship Program (ESP). Our organization is committed to meeting and further exceeding the standards as set forth by the leaders in our industry. Visit WWW.KCMA.ORG for more information.

CARB II Compliant

California Air Resources Board (CARB) continues in the development of innovative air pollution control strategies. CARB II is the toughest standard in the world for formaldehyde emission levels from composite wood panels. Century Cabinetry products are CARB II compliant. Visit WWW.ARB.CA.GOV for more information.

LEADERSHIP IN ENERGY ENVIRONMENTAL DESIGN (LEED)

LEED is a nationally accepted benchmark for the design, construction and operation of high-performance green buildings. The LEED certification program is run under the guidance of the US Green Building Council (USGBC). Please visit WWW.USGBC.ORG for more information. Century Cabinetry can provide cabinets to fulfill most of your LEED project requirements.

EURO Replacement Items: Door Hinge Drilling Guide

Door Hinge Drilling Information for EURO

When ordering replacement doors, it is important to know the following:

1. All doors up to and including 42" high receive 2 hinge drillings.
2. All doors 48" and higher receive 3 hinge drillings.
3. Hinges do not come with replacement doors. If you need additional hinges, they must be ordered separately as a "REPLACEMENT" item.
Be sure to specify the type of cabinet the manufacturer in the REPLACEMENT item detail screen to ensure you receive the correct hinges

Dishwasher "Framed" (1/4")

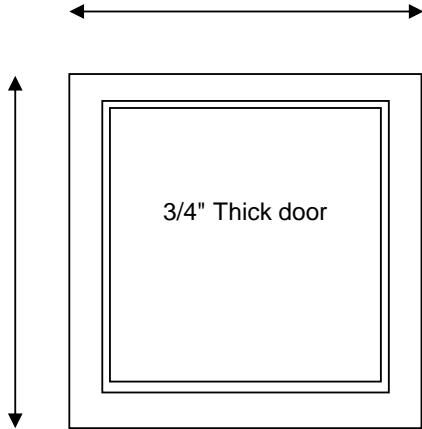

Typical "Framed" Dishwasher panel. This is a 3/4" thick door with 1/4" thick trim around all sides. There is a 2 1/2" reveal at the bottom and 1/2" on all other sides.

The bottom access panel is always 1/4" flat material.

NOTE: This panel is sometimes a different width than the top panel.

Dishwasher
"Overlay NO Routing" (3/4")

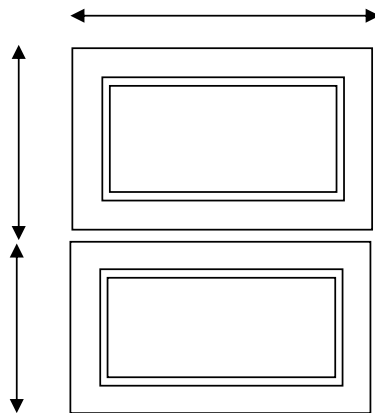

Typical "Overlay" Dishwasher panel. This is a 3/4" thick door

Typical GE Monogram DW panel style

Appliance Panels: Panel Specifications

Dishwasher - Double Drawer "Overlay NO Routing" (3/4")

Typical Double Drawer appliance. Available for Single or Double drawer DW's, Refrigerators/Freezers etc. These are always Overlay Doors however the routing detail (if any) will depend on the specs

Typical Double Drawer DW, Ref or Freezer etc.

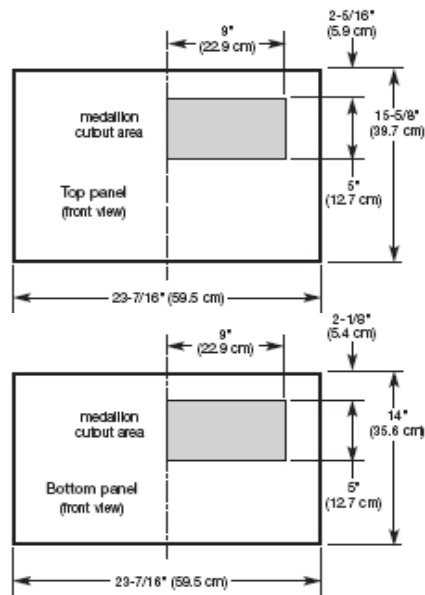

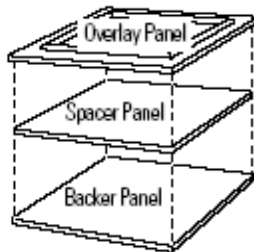

Most Manufacturers supply the exact panel sizes needed

3/4" Overlay Panel Dimensions (in inches)	
	A (Width) B (Height)
1/4" Backer	23-3/16" 14-11/16"
0.10" Spacer	22-1/2" 14-8/16"
3/4" Overlay	23-5/8" 15-1/16"

*Maintain a 1/4" min. gap between top and bottom drawer panels.

Assemble overlay panels with glue and screws.

- Center spacer panel on the backer panel, left to right and top to bottom. Secure the panels with glue.
- Center the spacer/backer panel on the overlay panel. Secure with glue and screws. Countersink all screws into the backer panel.

GE Monogram Double Drawer Refrigerator

This would be an example of "Overlay Special Routing"

Kitchen Aid typical Double Drawer Dishwasher

This would be an example of "Overlay No Routing"

Take note of dimensional difference between overlay size and backer size:
3/8" difference for **HEIGHT**
7/16" difference for **WIDTH**

Always be sure to inform your customers that we can not cut out for "medallion" area on any panel

Appliance Panels: Panel Specifications

Dishwasher - Double Drawer "Overlay NO Routing" (3/4")

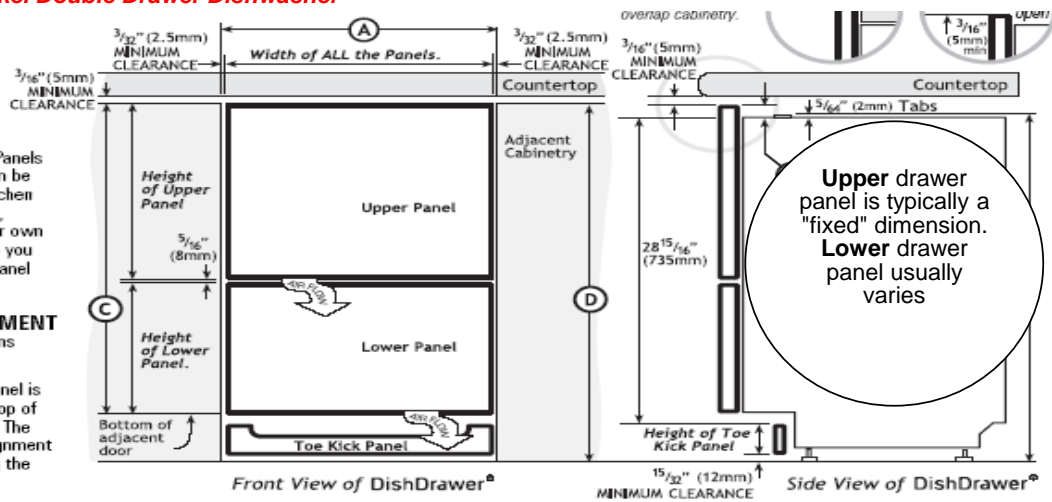

Typical Fisher & Paykel Double Drawer Dishwasher

The Door and Toe Kick Panels of the DishDrawer® can be made to match your kitchen cabinetry. This diagram, with the addition of your own measurements will help you calculate the required panel sizes.

CABINERY ALIGNMENT

The following calculations assume:

The top of the Upper Panel is to be aligned with the top of the adjacent cabinetry. The final panel/cabinetry alignment is achieved by adjusting the DishDrawer's feet

WIDTH OF ALL PANELS

Measure (A) the width between adjacent door/drawer fronts and write it in the first box below, then complete the equation. For example:

$$\textcircled{A} 24\frac{1}{4} (616\text{mm}) - 2 \times \frac{3}{32} (2.5\text{mm}) = 24\frac{1}{16} (611\text{mm})$$

door clearance width of all panels

$$\textcircled{A} 24 - 2 \times \frac{1}{8} = 23\frac{3}{4}$$

door clearance width of all panels
(3/32" (2.5mm) MIN) (23 7/16" (595mm) MIN)

HEIGHT OF UPPER PANEL

For example: $15\frac{5}{8} (398\text{mm}) + \textcircled{B} 0\text{mm} = 15\frac{5}{8} (398\text{mm})$

standard height door extension height of upper panel

$$\textcircled{A} 15\frac{5}{8} (398\text{mm}) + \textcircled{B} 0 = 15\frac{5}{8}$$

standard height door extension (0" recommended) height of upper panel

HEIGHT OF LOWER PANEL

Measure (C) door/drawer height (or equivalent) and write it in the first box below, then complete the equation. For example:

$$\textcircled{C} 30" (762\text{mm}) - 15\frac{5}{8}" (398\text{mm}) - \frac{5}{16}" (8\text{mm}) = 14\frac{1}{16}" (356\text{mm})$$

height of upper panel air gap height of lower panel

$$\textcircled{C} 29\frac{13}{32} - 15\frac{5}{8} - \frac{5}{16} = 13\frac{15}{32}$$

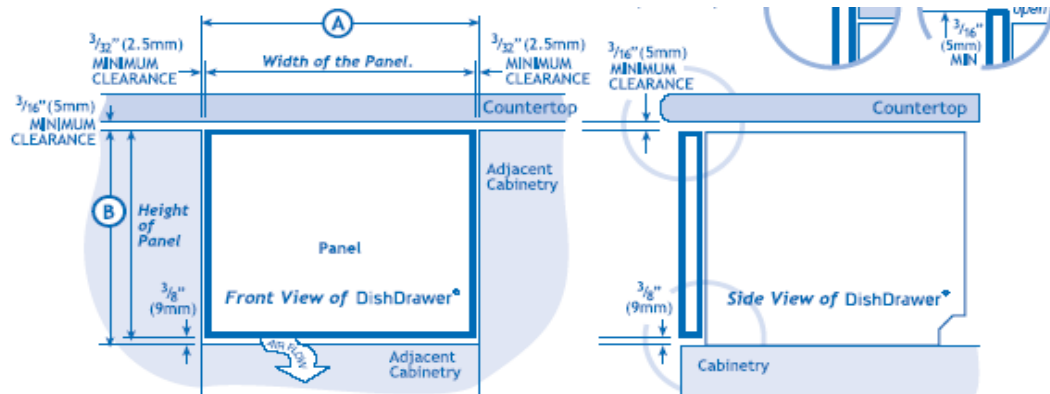

MIN 28 1/4" (717.5mm) + (B) height of upper panel gap between panels height of lower panel
(12 17/64" (311.5mm) MIN)

CARRIAGE HOUSE

Use same calculation for top drawer in CHS doors. However use different formula for the lower drawer.

Dishwasher - Double Drawer "Overlay NO Routing" (3/4")

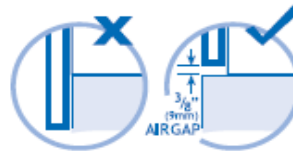

Typical Fisher & Paykel Single Drawer Dishwasher

⚠ WARNING
Be sure the Product is not plugged in.

The Door of the DishDrawer* can be made to match your kitchen cabinetry. This diagram, with the addition of your own measurements will help you calculate the required panel sizes.

Installer must leave 3/8" (9mm) gap for correct ventilation.

WIDTH OF THE PANEL

Measure **A** the width between adjacent door/drawer fronts and write it in the first box below, then complete the equation.

For example: A $24\frac{1}{4}$ (616mm) $- 2 \times \frac{3}{32}$ (2.5mm) = $24\frac{1}{16}$ (611mm) panel width

$$A \quad 24 \quad - \quad 2x \quad \frac{1}{8} \quad = \quad 23 \frac{3}{4}$$

door clearance (3/32" (2.5mm) MIN)
panel width (23 7/16" (595mm) MIN)

HEIGHT OF THE PANEL

Measure **B** door/drawer height (or equivalent) and write it in the first box below, then complete the equation.

For example: B 16 (407mm) $- \frac{3}{8}$ (9mm) = $15\frac{5}{8}$ (398mm) panel height

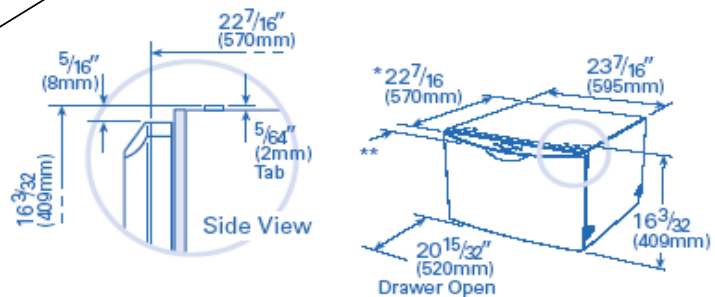

$$B \quad 16 \quad - \quad \frac{3}{8} \quad = \quad 15 \frac{5}{8}$$

air gap (9mm)
gap between panels (15 5/8" (398mm) MIN)

Note: When the top of the DishDrawer* has to be lower than the adjacent cabinetry, the Panel can be increased in height.

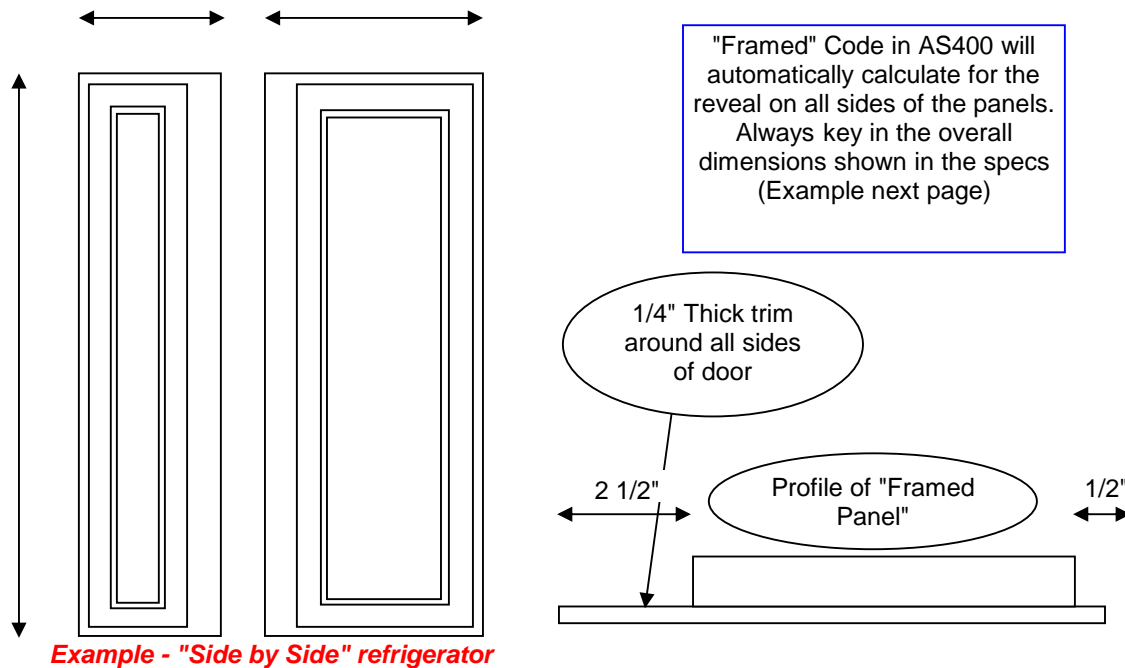

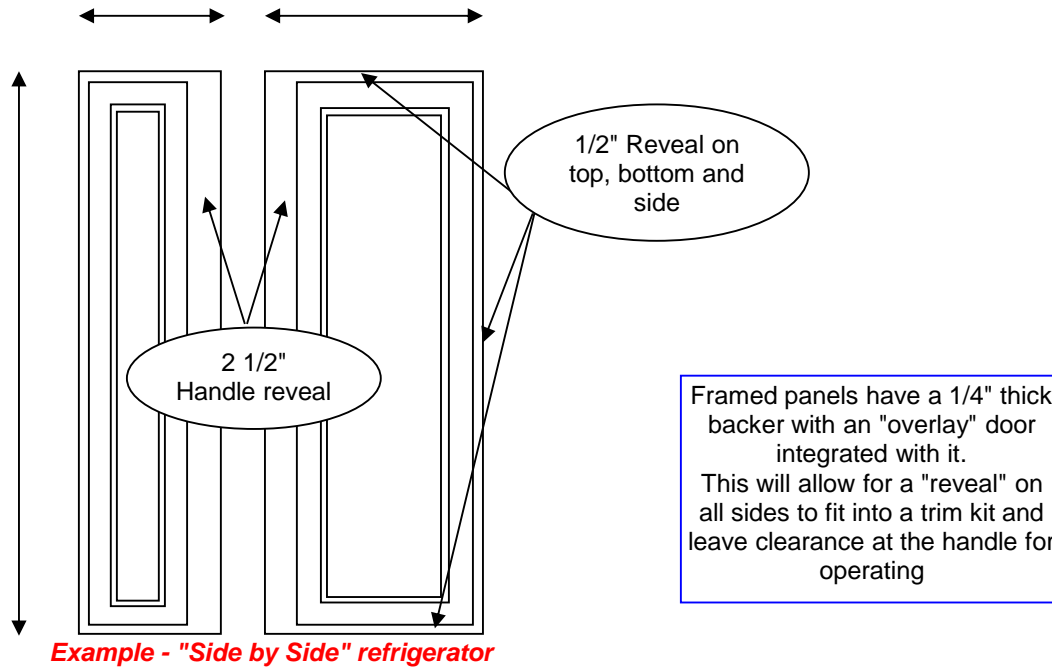

⚠ WARNING!

The air vent between the Panel and the adjacent cabinetry must not be covered. An air gap of 3/8" (9mm) MUST be provided.

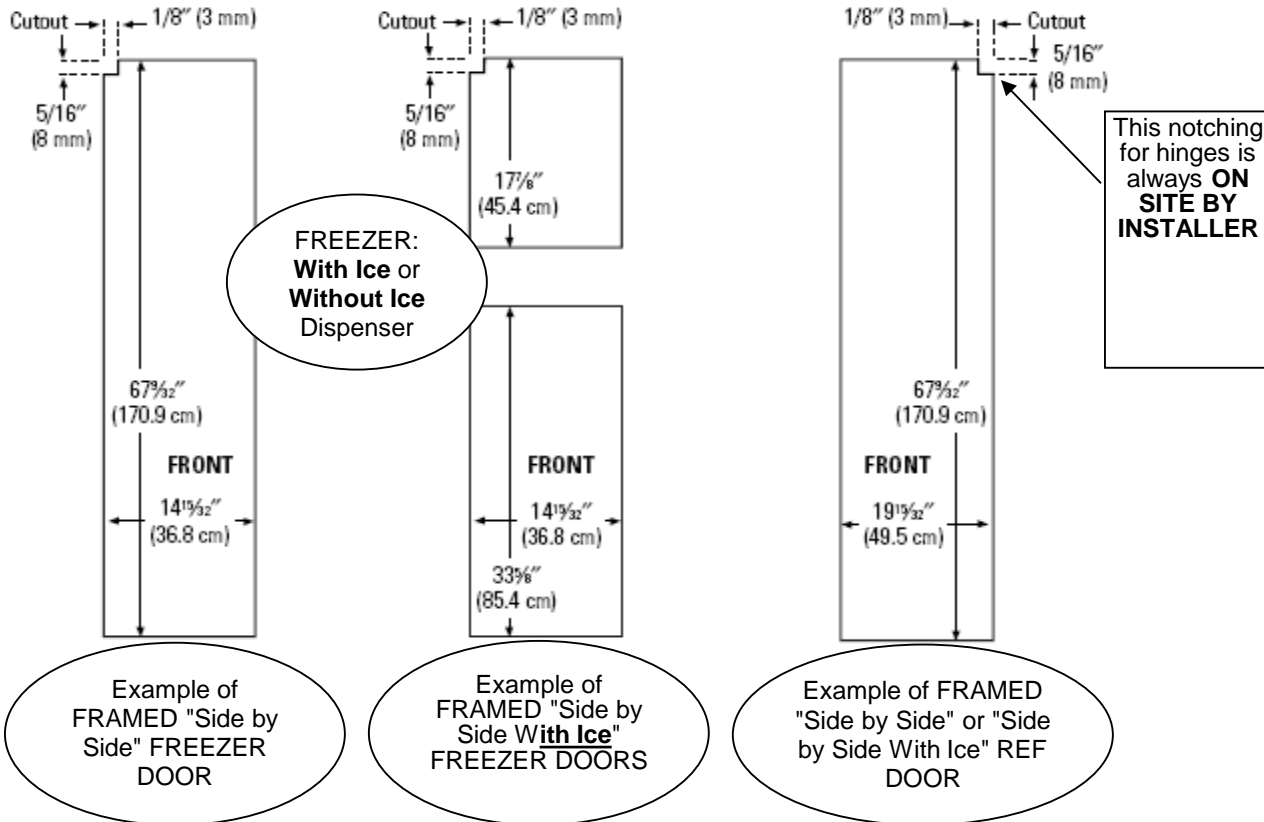

Use same calculation for the panel width as the double drawer panel.
Suggest to use the same height drawer as the standard height of the double drawer above. This can be used for **CHS** product.

Refrigerator - Side by Side "Framed" (1/4")

Refrigerator - Side by Side "Framed" (1/4")

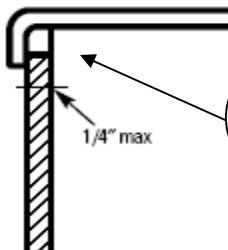

Example of typical GE Profile Side by Side spec

NOTE:

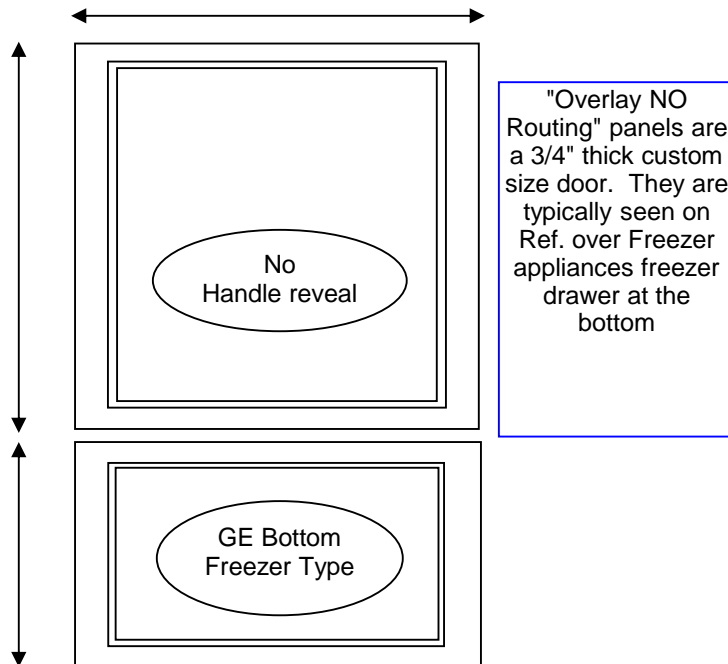

Always be sure to clarify with your customer if they are getting a dispenser or not.

Panels 1/4" thick or less

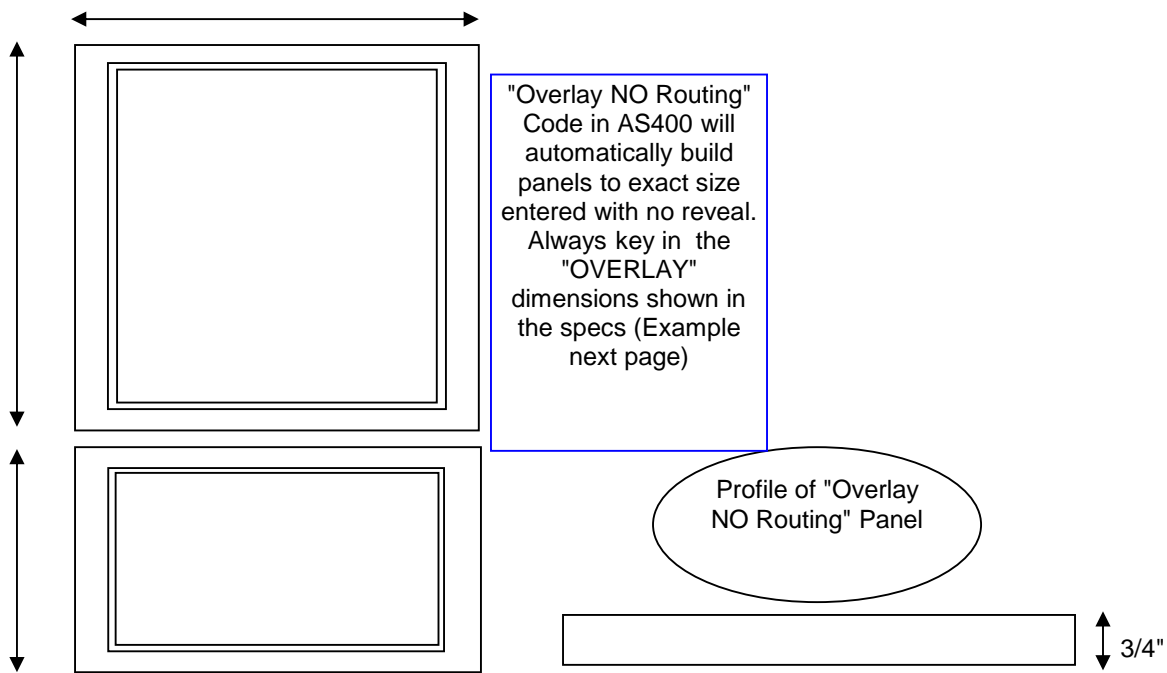

This is the typical information you will find in the spec pages. It is saying that the maximum thickness is 1/4". This is what a FRAMED appliance panel will have on all sides to fit into the trim kit.

Refrigerator - Refrigerator over Freezer "Overlay NO Routing" (3/4")

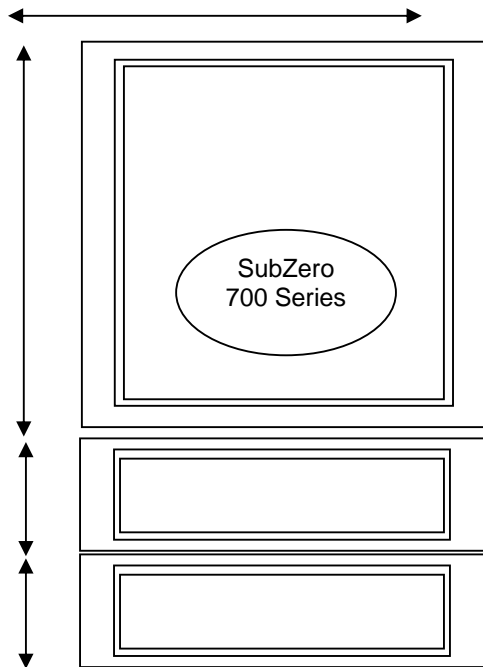

Example - "Refrigerator over Freezer"

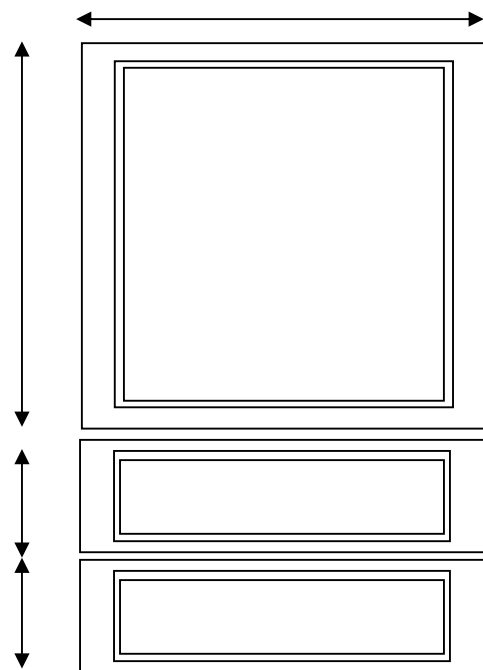

Example - "Refrigerator over Freezer"

Refrigerator - Refrigerator over Freezer "Overlay NO Routing" (3/4")

"Overlay NO Routing" panels are a 3/4" thick custom size door. They are typically seen on Ref. over Freezer appliances like the SubZero 700 series with the freezer drawers at the bottom

Example - "Refrigerator over Freezer drawers"

"Overlay NO Routing" Code in AS400 will automatically build panels to exact size entered with no reveal. Always key in the "OVERLAY" dimensions shown in the specs (Example next page)

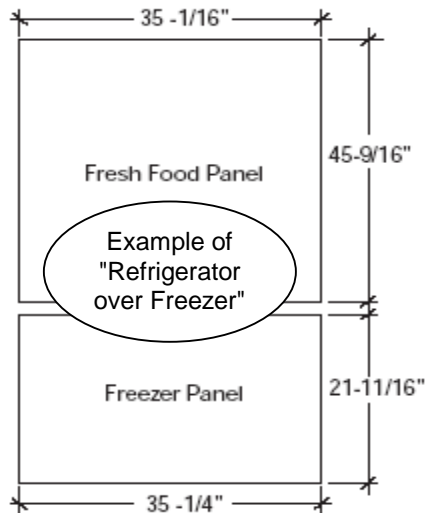

Profile of "Overlay NO Routing" Panel

Example - "Refrigerator over Freezer drawers"

Refrigerator - Refrigerator over Freezer "Overlay NO Routing" (3/4")

Example of typical GE Refrigerator

Custom Door Panel Dimensions
Using Trim Kits ZKTC36L or ZKTC36R
3/4" thick panel with kit supplied handle

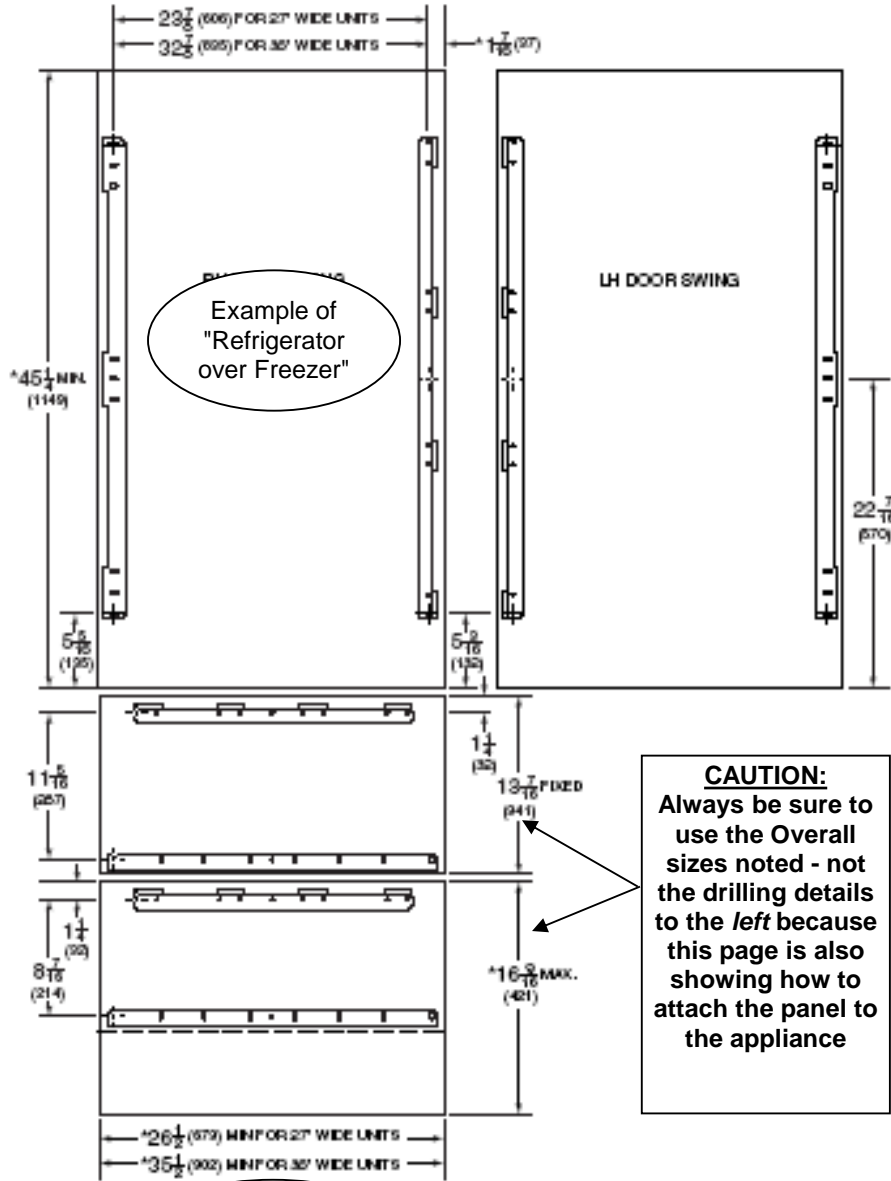

ZIS36N Bottom Mount Refrigerator

- The ZKTC36L (or ZKTC36R) trim kit provides for the installation of 3/4" thick custom door and grille panels, using the supplied handle. Cut panels to size and install.

Always be careful to clarify which handles are being supplied because it could affect the panel sizes

Refrigerator - Refrigerator over Freezer "Overlay NO Routing" (3/4")

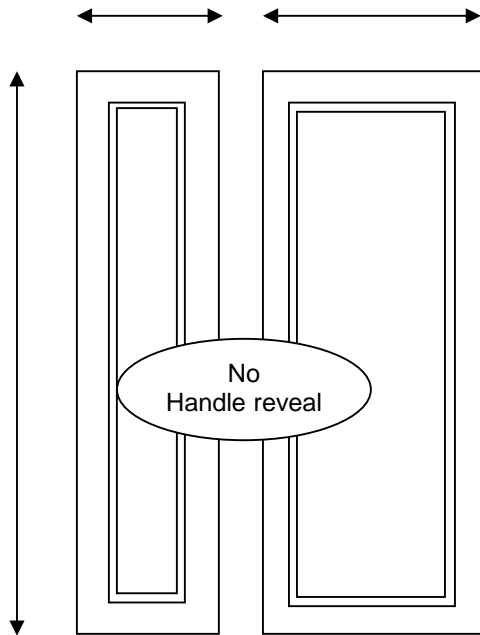

Example of typical SubZero 700 Series Refrigerator (shown available in 27" or 36" width appliance)

CAUTION:
Always be sure to use the Overall sizes noted - not the drilling details to the left because this page is also showing how to attach the panel to the appliance

For drawer only undercounter units use the dimensions shown for just the 2 drawers

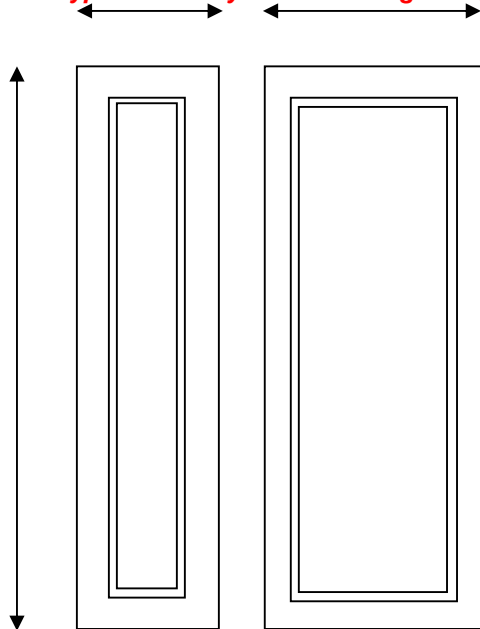

Refrigerator - Side by Side "Overlay WITH Routing" (3/4")

Example - "Side by Side" refrigerator

"Overlay With Routing" panels are a 3/4" thick custom size door with a routing detail around all sides of the door to act as the "spacer" and "backer" panels

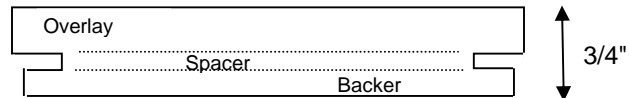

Example of typical Overlay WITH Routing Refrigerator

Example - "Side by Side" refrigerator

"Overlay WITH Routing" Code in AS400 will build the panels to exact size entered with no reveal. Always key in the "OVERLAY" dimensions shown in the specs (Example next page). HOWEVER details regarding the routing dimensions may need to be submitted to ensure proper fit.

Profile of "Overlay WITH Routing" Panel

See Illustration 12 & 13 next page

Refrigerator - Side by Side "Overlay WITH Routing" (3/4")

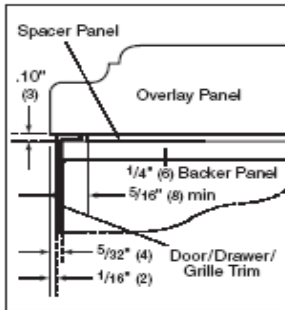

Example of typical Overlay WITH Routing Refrigerator

Model 642

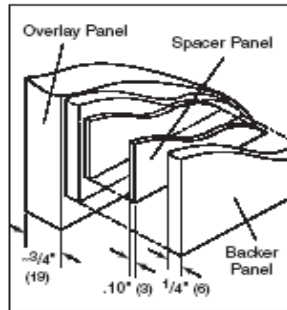

Refrigerator Overlay Panel	24 ⁵ / ₁₆ " (618)	68" (1727)
Refrigerator Spacer Panel	23 ³ / ₈ " (594)	67 ¹ / ₁₆ " (1703)

Backer Panel Height	9 ¹⁵ / ₁₆ " (252)

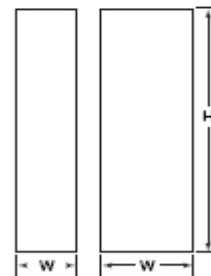

Key In Overlay dimensions on your order

Illus. 12

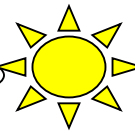

Illus. 13

Models 661, 642 and 632

Panel specifications are for Built-in overlay (O) models.

For grille panel size, use width dimensions listed for your model and height dimensions for grille option. **11" (279) grille is standard.**

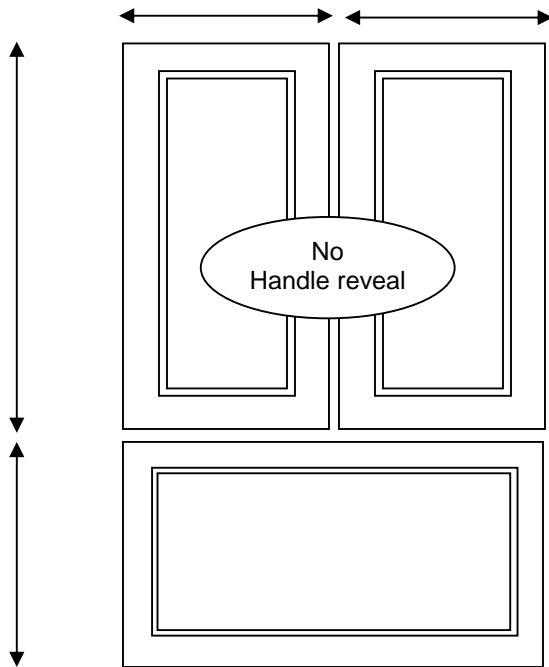

Panel grille is available for all overlay units except Models 601R, 601RG and 601F.

See note on next page to

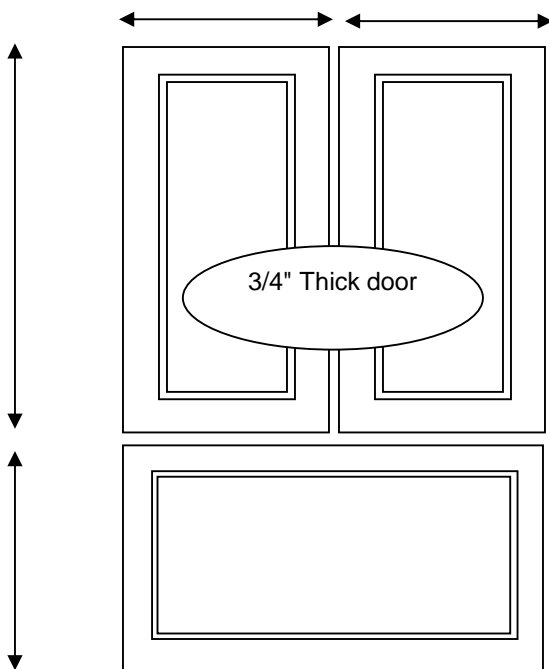

Whenever you see 3/4" Thick panels indicated in your panel specs, that is the clue that you need to either use Overlay WITH or NO Routing. Most SubZero's work with our "WITH Routing" code but some MFG's require special details. See "[Special Routing Details](#)" pages for more info.

Refrigerator - French Doors "Overlay WITH Routing" for *French Doors Style (3/4")*

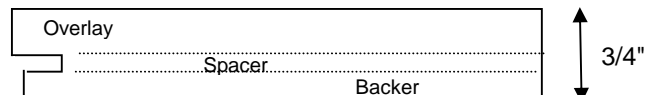

Example - "French Door style Refrigerator"

"Overlay WITH Routing" for French Door style Refrigerators are a 3/4" thick custom size door with **special routing placement**. The *Refrigerator* gets routed on the Top, Bottom and NON-hinge sides. The *Freezer* gets routed on all 4 sides

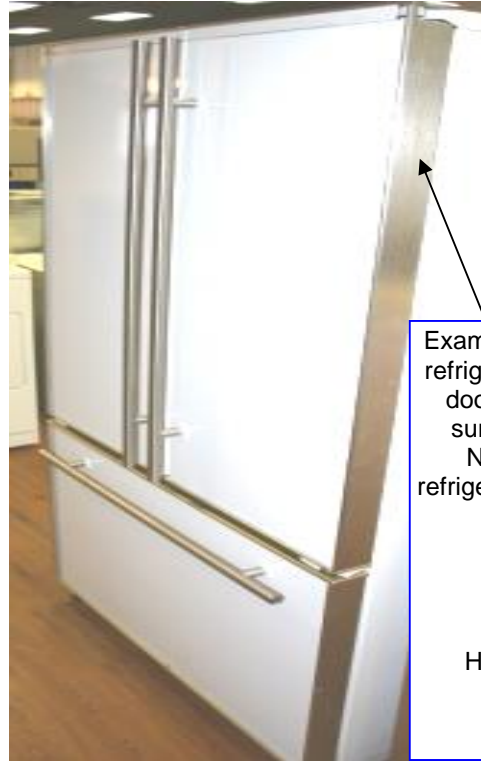

"Overlay NO Routing" Code in AS400 will automatically build panels to exact size entered with no reveal. Always key in the "OVERLAY" dimensions shown in the specs (Example next page)

Profile of "Overlay WITH Routing" Panel for French Door Ref.

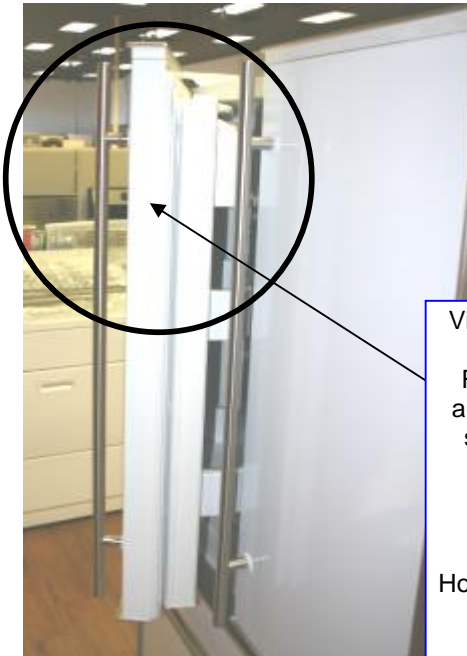

Refrigerator - French Doors "Overlay WITH Routing" for *French Doors Style (3/4")*

NOTE: Although routing detail will show thru on the Handle side, the bottom of the trim kit covers the routed detail that would be seen from the handle side

Example of Viking French Door refrigerator to accept appliance door panels. Metal Trim kit surrounds top, bottom and NON-handle side of the refrigerator doors and all 4 sides of the Freezer door.

--	---	--	---	--

Glasswell cutouts will require that you order a 3/4" thick SLAB piece for installer to cut dispenser opening. This piece will be assembled with the other custom panels for the Refrigerator door.

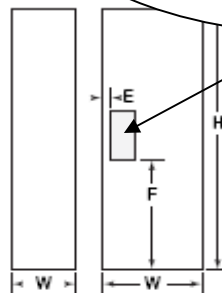

Refer to these dimensions to calculate exact panel sizes

illus. 12

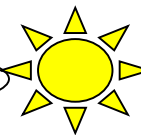

illus. 13

Models 685 and 695

See next page to calculate SLAB piece size as well as doors above, below and next to Glasswell

For grille panel size, use width dimensions listed for your model and height dimensions for grille option. **11" (279) grille is standard.**

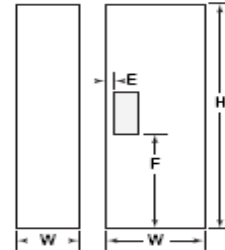

Panel grille is available for all overlay units except Models 601R, 601RG and 601F.

See note on next page to enter **Grill Panel**

Refrigerator - Side by Side *with Dispenser Cutout* "Overlay WITH Special Backer (3/4" + 3/8")

Calculating Glasswell SLAB panel size

Glasswell Cut-out Dimensions	5 7/8" (150)	12 7/16" (315)
Glasswell Location (Overlay)	E) 1 11/16" (43)	F) 28 3/4" (730)
Glasswell Location (Spacer)	E) 1 1/4" (31)	F) 28 1/4" (718)
Glasswell Location (Backer)	E) 1 9/16" (39)	F) 28 9/16" (726)

To calculate SLAB width take the "E" overlay dimension x 2

$$1 \frac{11}{16} \times 2 = \underline{3 \frac{3}{8}}$$

Plus the Cut out dimension width of 5 7/8

$$3 \frac{3}{8} + 5 \frac{7}{8} = \underline{9 \frac{1}{4}}$$

9 1/4" is the width of the 3/4" SLAB

"E" Dimension represents the space between the cut out and the edge of the panel. Doubling it allows for a border that matches on the left & right

To calculate SLAB height take the overlay Cut-Out dimension Plus "E" dimension x 2

$$12 \frac{7}{16} + 3 \frac{3}{8} = \underline{15 \frac{13}{16}}$$

15 13/16" is the height of the 3/4" SLAB

Cut-Out Dimension of 12 7/16" represents the height of the glasswell cut out. By adding the "E" dimension 2x's to the height, the top & bottom border will match the left & right

Add item to panel order

Use Panel-Appl__ program to add this SLAB piece

Panel Group: **Side by Side**
 Panel Reveal: **3/4" Finished Slab**
 Appliance MFG: **SubZero**
 Appliance Type: **Glasswell**
 Model Number: **695**

Mark with "SUB" MFG code to tag as Subcomponent so plant will look for this piece to assemble with REF and FREEZER pieces

Width	Height	Panel Type	Price	Need Drawing Y/N	MFG
9 1/4	15 13/16	Leave Blank	320.00	Y	SUB

Make sure to indicate "Y" when it is an ASSEMBLY piece

Refrigerator - Side by Side *with Dispenser Cutout* "Overlay WITH Special Backer (3/4" + 3/8")

Calculating Doors panels above, below and next to Glasswell SLAB

Model 695	W	H
Refrigerator Overlay Panel	28" (711)	68" (1727)
Refrigerator Spacer Panel	27 ¹ / ₁₆ " (687)	67 ¹ / ₁₆ " (1703)
Refrigerator Backer Panel	27 ¹¹ / ₁₆ " (703)	67 ¹¹ / ₁₆ " (1719)
Freezer Overlay Panel	18 ¹ / ₄ " (464)	68" (1727)
Freezer Spacer Panel	17 ⁵ / ₁₆ " (440)	67 ¹ / ₁₆ " (1703)
Freezer Backer Panel	17 ¹⁵ / ₁₆ " (456)	67 ¹¹ / ₁₆ " (1719)
Glasswell Cut-out Dimensions	5 ⁷ / ₈ " (150)	12 ⁷ / ₁₆ " (315)
Glasswell Location (Overlay)	E) 1 ¹¹ / ₁₆ " (43)	F) 28 ³ / ₄ " (730)
Glasswell Location (Spacer)	E) 1 ¹ / ₄ " (31)	F) 28 ¹ / ₄ " (718)
Glasswell Location (Backer)	E) 1 ⁹ / ₁₆ " (39)	F) 28 ⁹ / ₁₆ " (726)

To calculate the lower *Glasswell* door panel (marked 2)

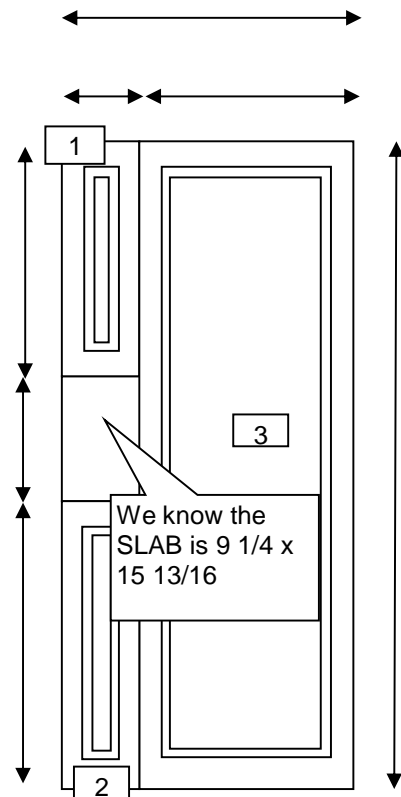

- W The width will match the SLAB of 9 1/4"
- H Take the total height of "F" 28 3/4" less 1 11/16" = 27 1/16"
Bottom REF panel is 9 1/4" x 27 1/16"

To calculate the upper *Glasswell* door panel (marked 1)

- W The width will match the SLAB of 9 1/4"
- H Take the total height of the REF door 68" less the SLAB 15 13/16"
less the lower door 27 1/16"
Upper REF panel is 9 1/4" x 25 1/8"

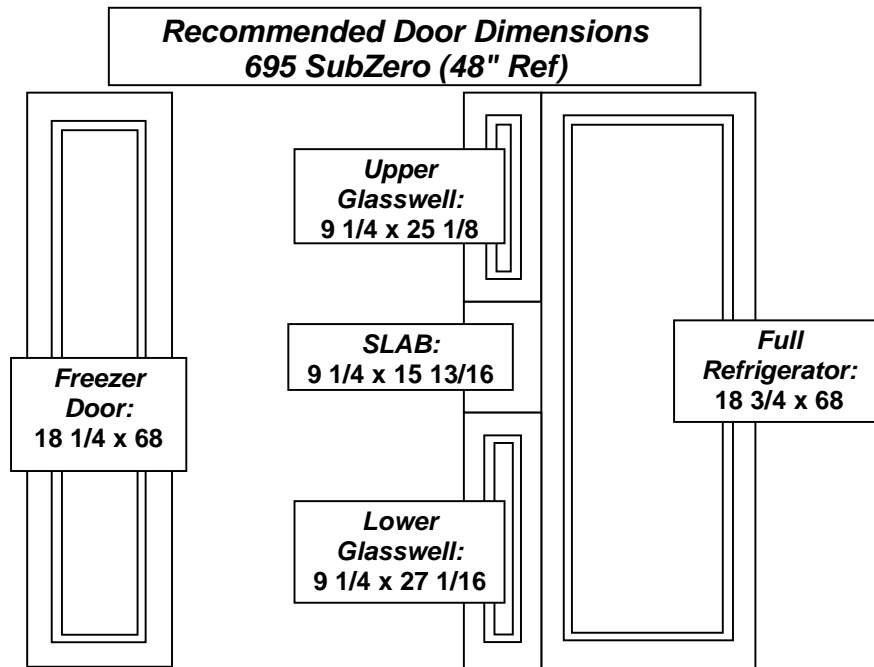

To calculate the Full Length Door to the right of the Glasswell (marked 3)

- W The overall width of the panel is 28" less the 9 1/4" door above
the glasswell = 18 3/4"
- H The height is exactly the same as the standard spec detail = 68"
Full Length REF door is 18 3/4" x 68"

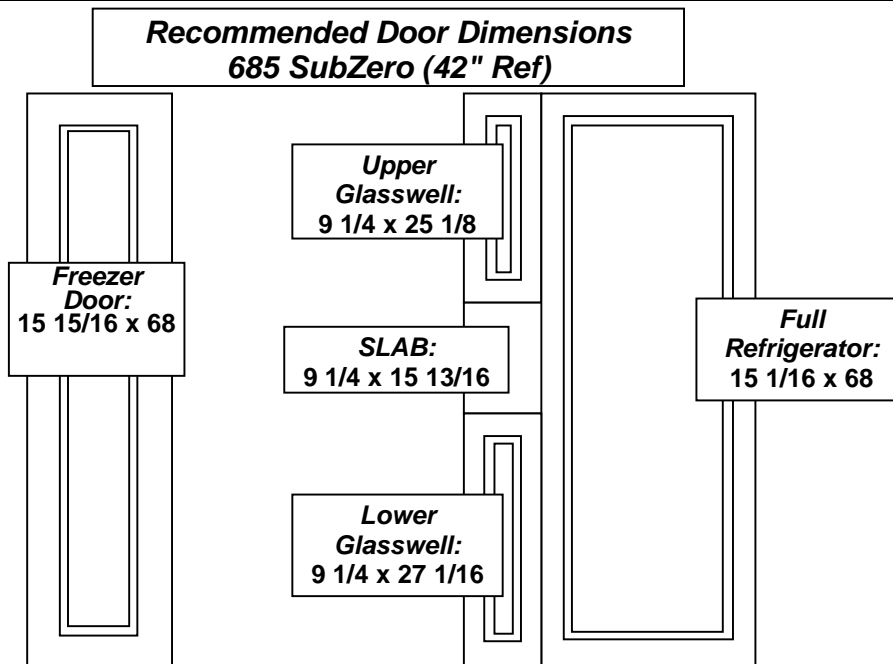

FREEZER & GRILL panels are entered exactly as shown above using OVERLAY dimensions

Refrigerator - Side by Side with Dispenser Cutout
"Overlay WITH Special Backer (3/4" + 3/8")"

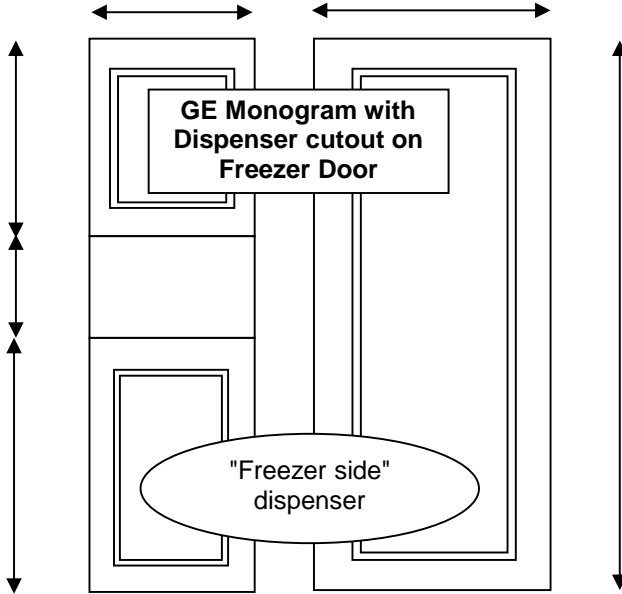

Example - SubZero 695 "Side by Side" with dispenser cut out on Refrigerator Door

Example - SubZero 685 "Side by Side" with dispenser cut out on Refrigerator Door

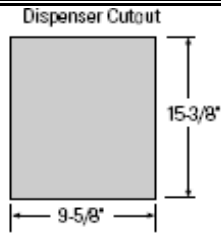

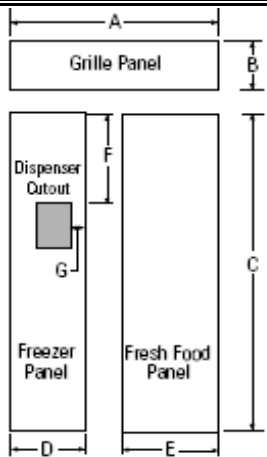

Refrigerator - Side by Side *with Dispenser Cutout* "Overlay WITH Special Backer (3/4" + 3/8")

Example of typical Overlay WITH Special Backer for Freezer with Dispenser cut out

Use same technique as Refrigerator dispenser cut out to calculate dimensions of SLAB piece and door for above and below.

Always add approx. 2" to SLAB piece height to allow for about 1" reveal at the top and bottom of the cut out.
...Make sure to deduct from the doors above and below.

*Cut the dispenser opening after the backer, spacer and overlay panels have been assembled.

36 & 42" GE Monograms will always require a slab piece for the dispenser cut out on the freezer door.

36" Side-by-Side (in inches)

	A	B	C	D	E	F	G
1/4" Backer Panel	33-7/8	9	68-3/8	14-9/16	18-9/16		
.10" Spacer Panel	33	8-3/8	67	13-1/4	17-1/4		
3/4" Overlay Panel	34-1/8	9-1/4	68-5/8	14-13/16	18-13/16	17-15/16	3-1/4

42" Side-by-Side (in inches)

	A	B	C	D	E	F	G
1/4" Backer Panel	39-7/8	9-1/2	68-3/8	14-9/16	24-9/16		
.10" Spacer Panel	39	8-5/8	67	13-1/4	23-1/4		
3/4" Overlay Panel	40-1/8	9-3/4	68-5/8	14-13/16	24-13/16	17-15/16	3-1/4

48" Side-by-Side (in inches)

	A	B	C	D	E	F	G
1/4" Backer Panel	45-7/8	9-1/2	68-3/8	18-9/16	26-9/16		
.10" Spacer Panel	45	8-5/8	67	17-1/4	25-1/4		
3/4" Overlay Panel	46-1/8	9-3/4	68-5/8	18-13/16	26-13/16	17-15/16	5-1/4

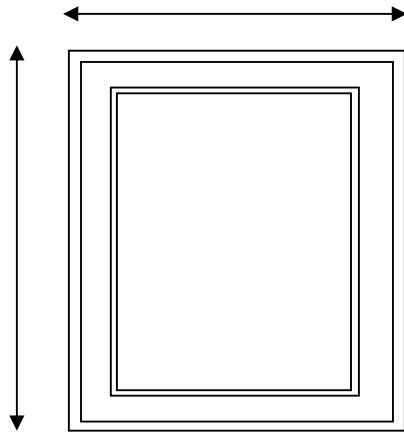

*Dispenser Cutout Position

Follow same AS400 directions as Refrigerator side cut out.

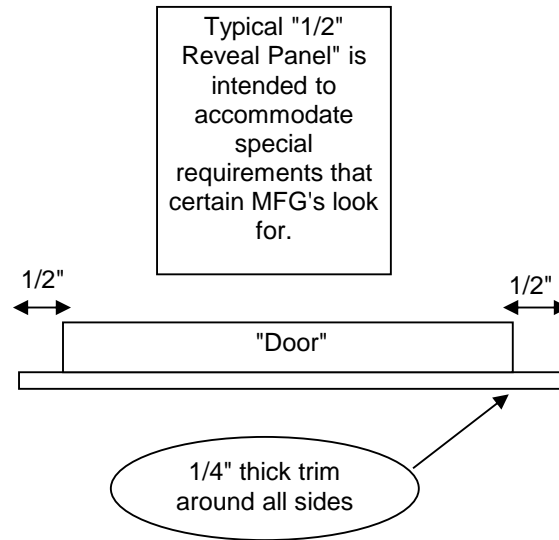

48" GE Monogram refrigerators do not require a slab for the dispenser location. Typically the cut out will fit on to the center panel of the door.

1/2" Reveal Panel "Framed" (1/4")

Generic Panel

1/2" Reveal Panel

Example of U-Line 1/2" Reveal Panel spec

ÉCHELON

1/4" CUSTOM INSERT PANEL SIZES

2115/CLR2160	27 11/16" H x 14 1/32" W
2175	27 11/16" H x 23 1/32" W
2175DWRR/CO2175DWR	12 15/32" H x 23 1/32" W

- Zero clearance with a flush/flat door panel.
- Door will accept a raised panel. Allow proper clearance, on hinge side when installing a raised panel. Amount of clearance will depend on raised panel thickness.
- The maximum panel thickness when inserted into the door reveal (channel) is 1/4" thick.
- For raised panels the depth of the reveal is 1/4" on both sides and bottom and 1/4" on top.
- Panel not to exceed 20 pounds.

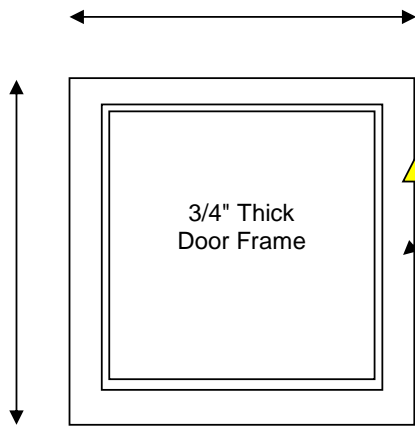

This tells you it is "Framed"

Century will always use a 1/2" reveal on all panels of this type which will work as well.

Appliance Panels: Panel Specifications

"Frame Only"

"Overlay NO Routing" or "Overlay Special Routing" (3/4")

Typical SubZero Frame only

Typical "Frame Only". This is a 3/4" thick Frame made from *matching door rail* to use on glass front refrigerators, wine coolers, etc

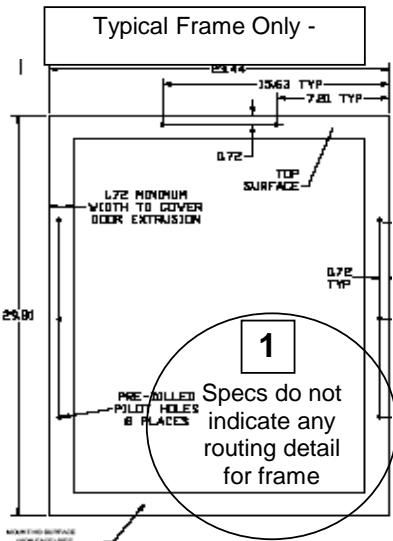

We will no longer have to MFG these with a "generic" piece of slab material

Basically this piece looks similar to a glass door. However it is finished on front, outside and inside. The typical detail that holds the glass on a Century door is filled in to make it flat

See Exceptions on Page 3

Common Frame Only routing details

- ▲ There appears to be 3 different possible details that may be needed for the "Frame Only" panel frame. This varies by manufacturer.
- ▲ 1. Calls for the back and side of the frame to be flat without any detail on it. **OR**
- ▲ 2. For routing typical of the SubZero style routing (see overlay with routing REF pages for details) **OR**
- ▲ 3. For routing on the back of the frame instead of the sides to allow it to lay flat against the glass frame on the appliance.

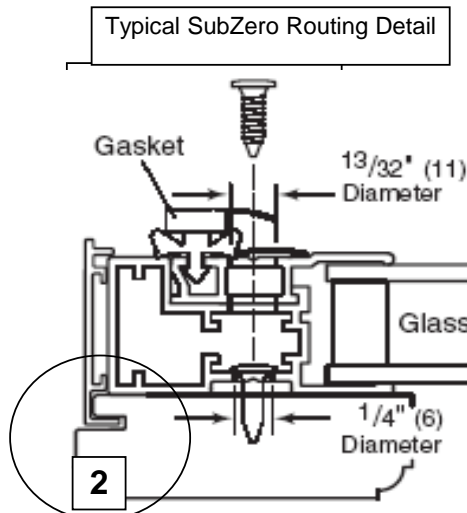

Typical Frame Only that does not require any routing detail

Use "Overlay No Routing" code on your order

Example From:

Marvel 24" Designer Door

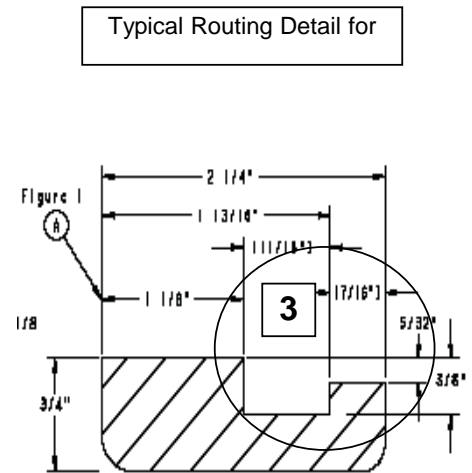

Typical Frame Only that requires routing detail on the sides of the frame

Use "Overlay Special Routing" code on your order

Example From:

SubZero 430

Typical Frame Only that requires routing detail only on the back of the frame

Use "Overlay Special Routing" code on your order

Example From:

U-Line 2175 & 2115

Appliance Panels: Panel Specifications

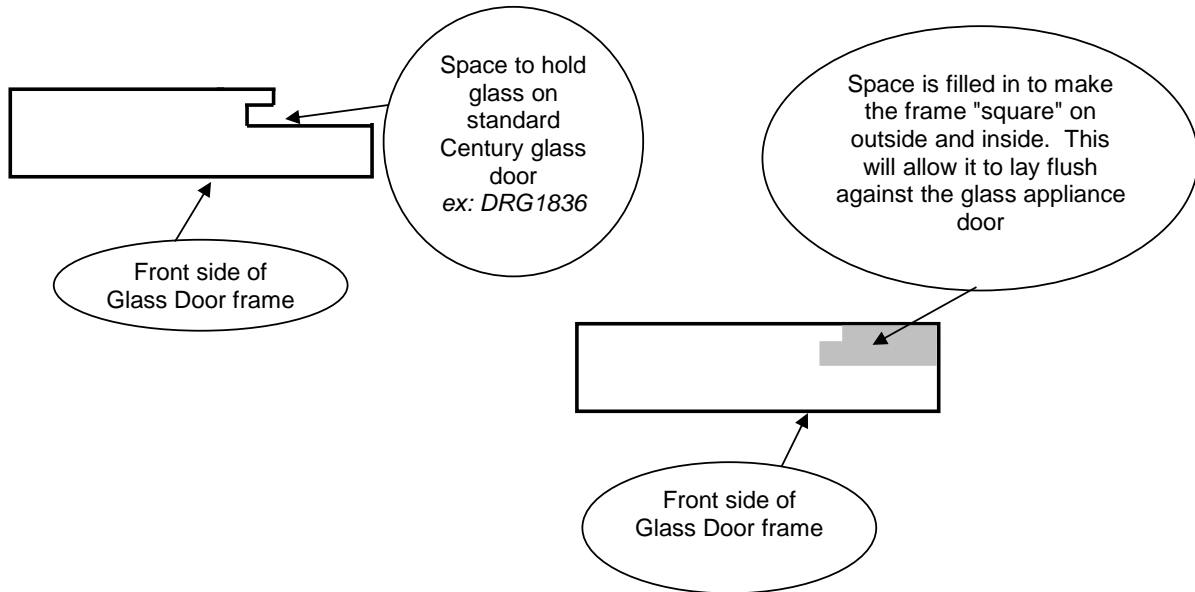

"Frame Only"

"Overlay NO Routing" or "Overlay Special Routing" (3/4")

"Frame Only"

"Overlay no Routing" or "Overlay Special Routing"

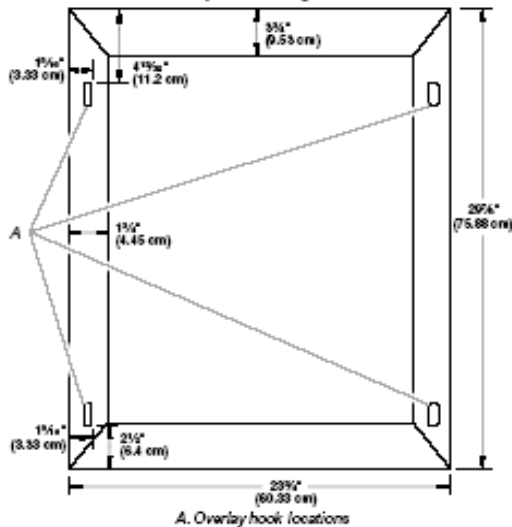

All "Frame Only" panels will be "filled" in as shown below, further routing detail "Overlay no Routing" or "Overlay Special Routing" will depend on the MFG specs that are provided. See details below.

Known exceptions for MFG of frame only panels

Overlay Frame—Rear View

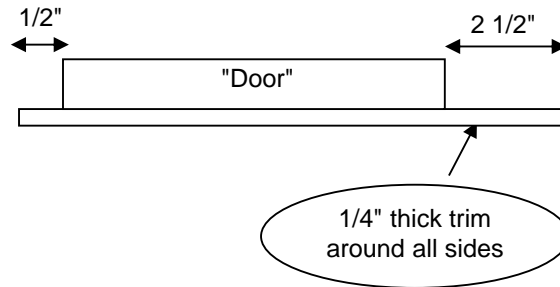

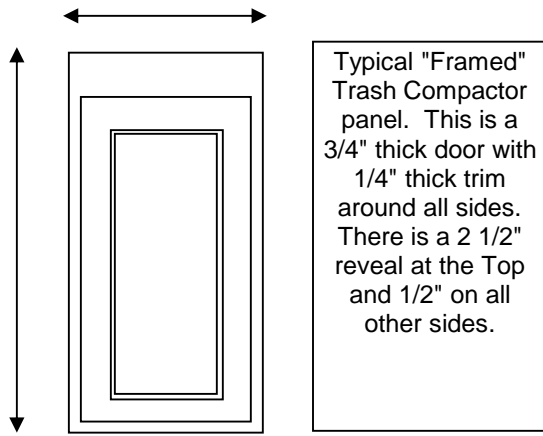

Create the custom overlay frame using the dimensions shown.

Several *Kitchen Aid* models require a wider Rail (3 3/4") than Stile (1 3/4"). Because you can't miter that frame correctly, Century will not be able to MFG frames with these requirements using a Door Rail. A Slab Filler piece will have to be used to make this type of frame

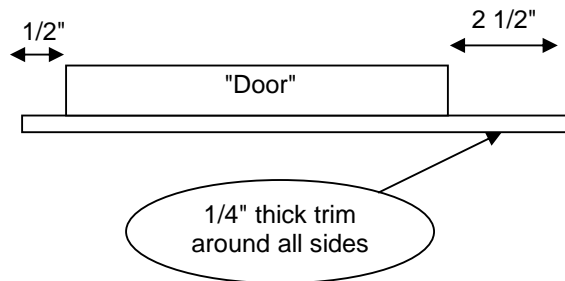

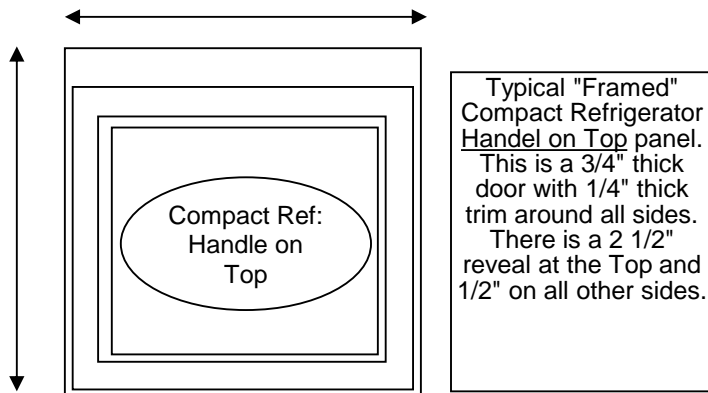

"Trash Compactor / Compact Fridge / Wine Cooler" "Framed" (1/4")

Trash Compactor

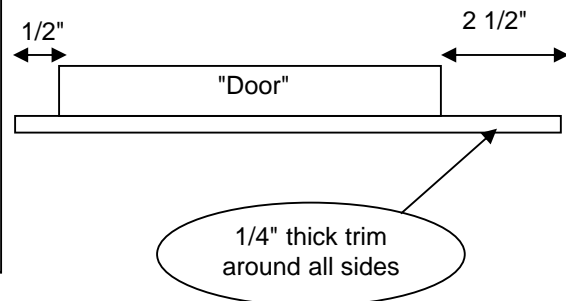

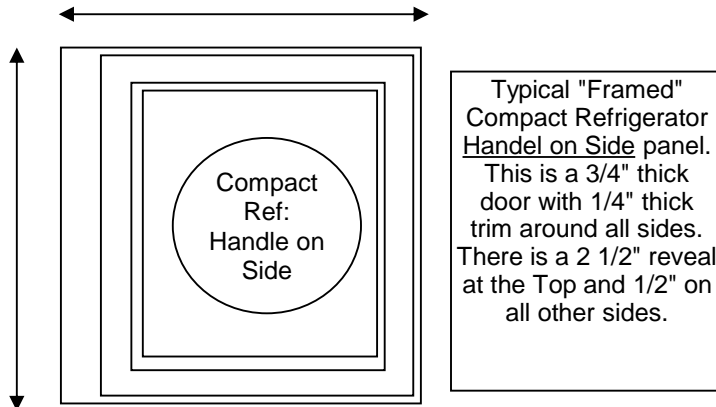

Typical GE Profile Trash Compactor panel

Compact Refrigerator Handle on Top

Typical Compact Refrigerator - Handle on Top

Compact Refrigerator Handle on Side

Typical Compact Refrigerator - Handle on Side

Appliance Panels: Panel Specifications

"Trash Compactor / Compact Fridge / Wine Cooler" "Framed" (1/4")

Entering "Trash Compactor" or "Compact Ref..." in AS400

Key in	QTY	MFG	STYLE	ITEM	DESCRIPTION
	1	CHS	HA	PANEL-APPL1	HAMPTON ANTIQUE

Panel Group: Trash Compactor
Panel Reveal: Frame
Appliance MFG: GE
Appliance Type: Profile
Model Number: 56985

Width	Height	Panel Type	Price	Need Drawing Y/N
15	30	<i>Leave Blank</i>	150.00	N

Follow same details for Compact Refrigerators,
however **ALWAYS CLARIFY WHERE THE
HANDLE LOCATION IS** so the reveal is located
in the correct place and it will operate properly
